

MelodySusie S-Pro04

MelodySusie Professional UV Nail Lamp S-Pro04 Instruction Manual

Model: S-Pro04

1. INTRODUCTION

The MelodySusie Professional UV Nail Lamp S-Pro04 is a powerful and efficient tool designed for professional nail care. It is suitable for curing various gel types, including builder, extension, acrylic, and chrome-infused gels, as well as 3D printer UV resin. This manual provides essential information for safe and effective use of your device.

2. SAFETY INFORMATION

Important Tips: This nail lamp is designed for use with 110V power supply and features a US plug. Using this nail dryer in countries or areas without a compatible transformer may result in damage to the device.

3. PRODUCT FEATURES

- **36W UV/LED Nail Lamp:** Powerful and ultra-efficient for quick curing.
- **Detachable Metal Base:** Provides ample space for both manicures and pedicures, and allows for easy cleaning.
- **Glass-like Reflective Surface:** Enhances curing efficiency.
- **4 Upgraded UV Light Tubes:** Delivers powerful and even curing for all gel types, including hard gels, builder gels, extension gels, acrylic gels, and chrome-infused gels. Also effective for 3D printer UV resin.
- **Multiple Timer Settings:** Includes 120 seconds, 180 seconds, and 30 minutes for customized curing times.
- **Durable Construction:** Made from non-toxic, odorless engineering ABS plastic, ensuring lightweight, sturdy, and safe operation.

- **Heat-Dissipation Holes:** Enhances safety and provides a more comfortable curing experience.

MelodySusie 36W UV Nail Lamp

- | | |
|---|----------------------------------|
| 1. Fast curing than other normal lamp | 4. No harm to your skin and eyes |
| 2. Easy to replace bulbs | 5. Low heat and painless |
| 3. Built-in 2, 3mins and 30 mins timers | 6. Manicure & Pedicure friendly |

4. SETUP

1. **Unpack:** Carefully remove the nail lamp and all accessories from the packaging.
2. **Inspect:** Check the device for any signs of damage. Ensure all four UV light tubes are securely in place.
3. **Power Connection:** Connect the power adapter to the power port on the back of the lamp. Plug the adapter into a standard 110V electrical outlet.
4. **Placement:** Place the lamp on a stable, flat surface. Ensure adequate ventilation around the device.

Product Details

5. OPERATING INSTRUCTIONS

1. **Power On:** Flip the main power switch (I/O) on the back of the device to the 'I' position. The 'Time Start' indicator light will illuminate.
2. **Select Timer:** Use the timer control knob to select your desired curing time: 120 seconds, 180 seconds, or 30 minutes.
3. **Start Curing:** Place your hand or foot (for manicures/pedicures) or the item to be cured (for resin projects) into the lamp opening. Press the 'Time Start' button to begin the curing cycle. The UV lights will turn on.
4. **Automatic Shut-off:** The lamp will automatically turn off once the selected timer duration is complete.
5. **Power Off:** After use, flip the main power switch to the 'O' position to turn off the device.

6. MAINTENANCE

Cleaning the Device

- Always unplug the device before cleaning.
- Wipe the exterior of the lamp with a soft, dry cloth.
- The detachable metal base can be removed for easier cleaning of any spilled polish or resin.

Replacing UV Light Tubes

1. **Step 1:** Gently press the base plate and pull it out from the device.
2. **Step 2:** Remove the base plate completely from the device.
3. **Step 3:** Carefully pull the old bulb(s) free from their socket. Insert new bulb(s) firmly into the sockets.
4. **Step 4:** Replace the base plate and push until it locks securely into place.

7. TROUBLESHOOTING

- **Lamp Not Turning On:** Ensure the power cord is securely plugged into both the device and a

working electrical outlet. Check the main power switch is in the 'I' (on) position.

- **Incomplete Curing:** Verify that the correct timer setting is selected for your specific gel type. Ensure the UV light tubes are functioning correctly; replace any non-working bulbs as per maintenance instructions. Make sure the gel is applied in thin, even coats.
- **Bulb Malfunction:** If a bulb is not lighting up, follow the bulb replacement instructions in the Maintenance section.
