Beautyrest BR54-0419

Beautyrest Heated Microlight to Berber Blanket

USER MANUAL

Introduction

This manual provides essential information for the safe and effective use of your Beautyrest Heated Microlight to Berber Blanket. Designed for comfort and warmth, this blanket features Secure Comfort Technology to minimize electromagnetic field emissions, soft flexible wires, and ultra-soft microlight plush fabric that reverses to cozy berber. It offers customizable warmth with 20 temperature settings and a 10-hour auto shut-off feature. The blanket is machine washable for easy care and OEKO-TEX certified, ensuring it is free from harmful substances.

Safety Information

Your Beautyrest heated blanket is designed with safety as a priority. It undergoes 78 independent safety tests, exceeding UL requirements. Please adhere to the following guidelines:

- Do not cover the controller while in use to prevent overheating.
- Ensure the blanket is laid flat and untucked, free from heavy objects, to allow for proper heat distribution.
- This product is OEKO-TEX certified, indicating it does not contain harmful substances.
- Always unplug the blanket before cleaning or if it will not be used for an extended period.
- Do not use with infants, incapacitated persons, or persons insensitive to heat.
- Do not use with pets.
- Do not dry clean this product. Dry cleaning solvents may damage the insulation of the heating element.

Setup

1. **Unpack:** Carefully remove the blanket and controllers from the packaging.
2. **Placement:** Lay the blanket flat on your bed, ensuring it is evenly spread without folds or bunches.
3. **Connect Controller(s):**
    - For Twin and Full sizes, connect the single controller to the blanket's connector.
    - For Queen and King sizes, connect both controllers to their respective connectors on the blanket. Ensure each controller is connected to its designated side.
4. **Power Connection:** Plug the power cord(s) into a standard 110-120V AC electrical outlet. Ensure the outlet is easily accessible.

Operating Instructions

The Beautyrest heated blanket features an easy-to-use controller with an LCD display for clear temperature and timer settings.

1. **Turning On/Off:** Press the power button () on the controller to turn the blanket on or off.
2. **Adjusting Heat Settings:** Use the up (▲) and down (▼) arrow buttons to select your desired heat level from 1 to 20. The LCD display will show the current setting.
3. **Preheat Function:** Press the "Preheat" button to quickly warm the blanket before use. This function typically runs for 1 hour.
4. **Auto Shut-Off Timer:** The blanket features a 10-hour auto shut-off for safety and energy conservation. You can adjust the timer if desired (refer to controller specific instructions for detailed timer adjustment).

5. **Dual Temperature Zones (Queen/King):** For Queen and King sizes, each side of the blanket has an independent controller, allowing two users to set their preferred warmth levels simultaneously.

Image: An illustration demonstrating the dual-zone heating capability of the blanket, allowing separate temperature control for two individuals.

Maintenance

Proper care will extend the life of your heated blanket.

1. **Washing:** The blanket is machine washable.
    - Always unplug the controller(s) from the blanket and the wall outlet before washing.
    - Wash on a gentle cycle with cold water.
    - Do not bleach or iron.
2. **Drying:** Tumble dry on low heat or air dry. Ensure the blanket is completely dry before reconnecting to power.
3. **Storage:** When not in use, store the blanket neatly folded in a cool, dry place. Avoid placing heavy objects on top of the blanket during storage, as this can damage the internal wiring.

Troubleshooting

Problem	Possible Cause / Solution
Light blinking / Controller showing "E" error code	Unplug and reconnect the controller, ensuring it is properly seated. If the issue persists, contact customer support. This can indicate a connection issue or an internal fault.

Problem	Possible Cause / Solution
Blanket not heating well or at all	◦ Ensure the blanket is powered on and set to a sufficiently high temperature level. ◦ Allow adequate time for the blanket to heat up, especially if it's cold. ◦ Verify the power cord is securely plugged into the wall outlet.
Only parts of the blanket are getting warm	This is usually caused by a bunched or pinched heating element. Lay the blanket flat, untucked, and free from heavy objects. Straighten the heating wires as needed to restore function. Lay the blanket flat and run your fingers along the wire, paying special attention to the top and bottom of the blanket where the wire bends. If any portion of the wire is twisted on itself, manually twist it back.

Specifications

Model Name: Auto Shut Off, Virtually Zero EMF, Multi Heat Setting, UL Certified, Machine Washable

Model Number: BR54-0419

Material: 100% Polyester (Microlight Plush & Berber)

Color: Grey

Size: King (90"L x 100"W)

Power: 110-120V @ 60Hz (Max 160W)

Heat Settings: 20 levels

Auto Shut-Off: 10 hours

Controllers: 2 (for King size)

Special Features: Secure Comfort Technology, Auto Shut Off, Adjustable Heat Setting, Auto Run, Quick Heat

Certifications: UL Certified, OEKO-TEX certified

UPC: 675716615932
