ZINUS AZ-PPSM-12T

User Manual for ZINUS 12 Inch Support Plus Pocket Spring Hybrid Mattress

MODEL: AZ-PPSM-12T

Brand: ZINUS

INTRODUCTION

The ZINUS 12 Inch Support Plus Pocket Spring Hybrid Mattress is engineered to provide firm support with a comfortable, soft quilted top. It features densely packed, firmer pocketed springs for extra stability, making it ideal for stomach sleepers and individuals seeking robust support. The independent pocket springs are designed to offer pressure relief and minimize motion transfer, ensuring an undisturbed sleep. The mattress incorporates CertiPUR-US certified foams for durability, performance, and content, ensuring a safe and comfortable sleeping environment.

SETUP GUIDE

Your ZINUS mattress is expertly compressed and packaged in a box for convenient shipping and easy maneuverability. Follow these steps for initial setup:

1. **Prepare Your Space:** Ensure you have a suitable foundation such as a platform bed, traditional bed frame with a box spring, or a SmartBase®. Clear the area where you intend to place the mattress.
2. **Unbox the Mattress:** Carefully remove the mattress from its packaging. It will be tightly rolled and vacuum-sealed.
3. **Unroll and Expand:** Place the rolled mattress on your chosen foundation. Carefully cut away the plastic wrapping. The mattress will begin to decompress immediately.
4. **Allow Full Expansion:** For optimal comfort and support, allow the mattress to fully expand to its original shape within 72 hours. During this time, you may gently walk or crawl on the mattress to help with decompression.

Why choose CertiPUR-US® certified foam?

Better for the atmosphere
No ozone depleters
Low VOC emissions

Better for air quality
No formaldehyde

Better for the environment
No PBDE flame retardants

Better for human health
No phthalates, heavy metals,
or "tris" flame retardants

OPERATING AND USAGE

The ZINUS 12 Inch Support Plus Hybrid Mattress is designed for a balanced feel, offering both firm support from its pocketed springs and a soft touch from its foam layers. This hybrid design provides excellent pressure relief and minimizes motion transfer, ensuring a restful sleep even with a partner.

- **Optimal Support:** This mattress is engineered with heavy gauge steel independent pocket innersprings for added stability, making it suitable for stomach sleepers and those who prefer a firmer sleeping surface.
- **Motion Isolation:** The individually wrapped iCoil® technology in the springs helps to isolate motion, so you won't be disturbed by a sleeping partner's movements.
- **Cool Sleep:** The mattress is designed to promote airflow, helping to regulate temperature and prevent overheating during the night.

iCoil®

Individually-wrapped iCoil® technology provides pressure - relief and support.

MAINTENANCE AND CLEANING

Proper maintenance will extend the life and comfort of your ZINUS mattress.

- **Spot Clean Only:** For spills or stains, clean the affected area immediately using a mild detergent and a damp cloth. Do not saturate the mattress. Allow to air dry completely.
- **Protect Your Mattress:** Consider using a mattress protector to guard against spills, stains, and allergens, which can significantly prolong the life of your mattress.
- **Rotate Regularly:** To ensure even wear and maintain consistent support, rotate your mattress 180 degrees every 3-6 months. This helps distribute body weight and prevent impressions.
- **Ventilation:** Allow your mattress to breathe by occasionally removing bedding and exposing it to air. This helps to dissipate moisture and maintain freshness.

TROUBLESHOOTING

Here are solutions to common concerns you might encounter with your new ZINUS mattress:

- **New Mattress Odor:** Upon unboxing, a slight "new product" or plastic smell may be present. This is normal and harmless. It typically dissipates within a few hours in a well-ventilated room.
- **Mattress Not Fully Expanded:** While the mattress begins to expand immediately, it can take up to 72 hours to reach its full size and firmness. Ensure it is placed on a flat surface during this period.
- **Perceived Firmness:** This mattress is designed to be firm, providing robust support. If you are accustomed to a softer mattress, it may take some time for your body to adjust.
- **Slight Sagging/Dips:** Ensure the mattress is on a supportive, flat foundation. Over time, minor body impressions are normal. If significant sagging occurs outside of normal use, refer to the warranty information.

PRODUCT SPECIFICATIONS

Feature	Detail
Product Dimensions	75"L x 39"W x 12"Th (Twin)
Item Weight	55.4 pounds
Thickness	12 Inches
Fill Material	Foam and Pocket Springs
Weight Limit	250 Pounds (Twin)
Color	White
Top Style	Euro Top
Cover Material	Polyester
Number of Layers	3
Special Feature	Durable, Low Motion Transfer
