THERMOS JMY5005SS4

THERMOS 16 Ounce Direct Drink Bottle, Stainless Steel Instruction Manual

Brand: THERMOS | Model: JMY5005SS4

INTRODUCTION

The THERMOS 16 Ounce Direct Drink Bottle, Stainless Steel, Model JMY5005SS4, is designed for on-the-go hydration. Featuring THERMOS vacuum insulation technology, it maximizes cold temperature retention for up to 12 hours. Its ergonomic design allows it to fit in most automobile drink holders, making it ideal for commuting.

KEY FEATURES

- THERMOS vacuum insulation technology keeps cold drinks cold for up to 12 hours.
- Durable 18/8 stainless steel interior and exterior withstand everyday use.
- Drink lid opens with push-button ease and locks closed for carefree travel.
- Direct drink lid allows control over liquid flow.
- 16 ounce capacity.

SETUP

Before first use, wash all parts with warm soapy water. Rinse thoroughly and dry. Ensure all components are completely dry before assembly.

OPERATING INSTRUCTIONS

To fill: Unscrew the lid assembly from the bottle. Pour your desired beverage into the bottle, ensuring not to overfill. Screw the lid assembly back on tightly to prevent leaks.

To drink: Slide the locking mechanism (if present) to the unlocked position. Press the push-button to open the drink lid. Drink directly from the spout. To close, push the lid down until it clicks, then slide the locking mechanism back to the locked position for secure, leak-proof travel.

TROUBLESHOOTING

- **Leakage:** Ensure the lid is screwed on tightly and the push-button lid is fully closed and locked. Check that the silicone seals are properly seated and free from debris.
- **Reduced Temperature Retention:** Verify the lid is securely closed. Pre-chill the bottle with cold water or pre-heat with hot water for 5-10 minutes before adding your beverage for optimal performance.

SPECIFICATIONS

- **Brand:** THERMOS
