How to Play (Operating)

Objective

The goal of Monopoly Empire is to be the first player to fill their tower with billboards, reaching the top of their tower unit.

Taking a Turn

On your turn, roll both dice and move your token clockwise around the board the corresponding number of spaces. Follow the instructions for the space you land on.

- **Brand Spaces:** If you land on an unowned brand space, you may buy it for the price indicated. If you buy it, take the corresponding Billboard Tile and place it in your tower. If you do not buy it, it goes up for auction.
- **Owned Brand Spaces:** If you land on an opponent's owned brand space, you must pay them rent. The rent amount is determined by the number of billboards in their tower.
- **Chance and Empire Spaces:** Draw a card from the respective pile and follow its instructions.
- **Go:** When you pass or land on GO, collect M200k.
- **Jail:** If you land on 'Go to Jail' or roll three doubles in a row, move your token to the Jail space.
- **Utilities and Railroads:** These spaces function similarly to brands, but their rent is calculated differently.

Buying Brands and Building Your Empire

When you buy a brand, you immediately place its Billboard Tile into your tower. The more brands you own, the higher your tower grows, and the more rent you can collect from opponents.

Empire Cards

Empire cards introduce special actions, such as swapping billboards with another player, stealing money, or gaining extra turns. Use these strategically to advance your position.

Winning the Game

The first player to successfully fill their tower with billboards wins the game. This signifies complete dominance of the brand empire.
