Jobar JB5824

Jobar JB5824 Talking Scale User Manual

Model: JB5824

1. Introduction

Thank you for choosing the Jobar JB5824 Talking Scale. This digital scale is designed for accurate weight measurement with the added convenience of a voice function, making it ideal for users with visual impairments. It features a durable tempered glass platform and a clear LCD display. Please read this manual thoroughly before using the scale to ensure proper operation and maintenance.

2. Safety Information

- Always place the scale on a hard, flat, and stable surface. Uneven surfaces can affect accuracy.
- Do not use the scale on wet or slippery floors to prevent accidents.
- The tempered glass platform can be slippery when wet. Ensure it is dry before stepping on it.
- Do not jump on the scale or subject it to sudden impacts.
- Keep the scale away from strong electromagnetic fields.
- This scale is intended for personal use only and not for commercial or medical diagnostic purposes.
- Keep batteries out of reach of children.

3. Package Contents

- 1 x Jobar JB5824 Talking Scale
- 1 x User Manual

4. Setup

4.1 Battery Installation

The Jobar JB5824 Talking Scale requires batteries for operation. The battery compartment is located on the underside of the scale.

1. Open the battery compartment cover on the back of the scale.
2. Insert the required batteries (typically AAA or CR2032, check the compartment for specific type) according to the polarity indicators (+ and -).
3. Close the battery compartment cover securely.

4.2 Initial Placement

Place the scale on a firm, flat surface. Avoid carpets or soft flooring, as these can affect measurement accuracy.

5. Operating Instructions

5.1 Taking a Measurement

1. **Activate the Scale:** Gently tap the center of the scale with your foot or hand. The display will light up, and the scale will show "0.0" or "0.00". The talking function will also activate.
2. **Step On:** Once "0.0" is displayed, step onto the scale with bare feet, standing still and centered on the platform.
3. **Read Measurement:** Your weight will be displayed on the LCD screen and announced by the talking function. Remain on the scale until the reading stabilizes and is announced.
4. **Step Off:** Step off the scale. The reading will remain for a few seconds before the scale automatically turns off.

5.2 Two-Person Memory Feature

The scale includes a two-person memory feature to track weight for two different users. Refer to the specific instructions on the scale's display or a dedicated button for setting and recalling user profiles. Typically, this involves pressing a "SET" or "USER" button and then selecting a user number before weighing.

5.3 Unit Conversion (if applicable)

If your scale supports unit conversion (e.g., pounds to kilograms), there is usually a button on the underside or back of the scale to switch between units. Press this button to select your preferred unit of measurement.

6. Maintenance

6.1 Cleaning

Clean the scale with a soft, damp cloth. Do not use abrasive cleaners or immerse the scale in water. Avoid harsh chemicals that could damage the finish or electronic components.

6.2 Storage

Store the scale in a cool, dry place. Avoid extreme temperatures and direct sunlight. If the scale will not be used for an extended period, it is recommended to remove the batteries to prevent leakage.

7. Troubleshooting

- **"Lo" or Low Battery Indicator:** Replace the batteries immediately. Ensure new batteries are inserted with correct polarity.
- **"Err" or Inaccurate Reading:**
  - Ensure the scale is on a hard, flat surface.
  - Step on the scale gently and stand still.
  - Recalibrate by stepping off, waiting for it to turn off, then tapping to activate and waiting for "0.0" before

stepping on again.
    - Check if the maximum weight capacity (550 lbs) has been exceeded.
- **No Display/No Power:**
    - Check battery installation and replace if necessary.
    - Ensure the battery compartment is securely closed.
- **No Voice Output:**
    - Check if the volume is turned down or muted (if applicable, refer to scale buttons).
    - Ensure batteries are fresh.

8. Specifications

Model	JB5824
Brand	Jobar
Weight Capacity	550 Pounds (250 kg)
