Siamp Ensemble Socle et Bras - Plaque Verso 350 - Instruction Manual

Brand: SIAMP | Model: part_B013TCHW06

PRODUCT OVERVIEW

This document provides instructions for the Siamp Ensemble Socle et Bras, a base and arm assembly designed for the Siamp Verso 350 and Verso 1100 flush plates. This is an original SIAMP part (reference 34 1133 07) intended for replacement or repair of compatible toilet flush systems.

Image: The Siamp base and arm plate, showing its structural design and mounting points. This component is crucial for the proper functioning of the flush mechanism.

SPECIFICATIONS

Brand	SIAMP
Model Number	part_B013TCHW06
Product Dimensions (L x W x H)	17 x 14.4 x 3.9 cm
Weight	102 grams
Material	Plastic
Original Part Reference	SIAMP 34 1133 07

COMPATIBILITY

This Siamp base and arm assembly is specifically designed for use with **SIAMP Verso 350** and **SIAMP Verso 1100** flush plates. It is an original replacement part and is *not adaptable for other brands or models*. Please verify your existing flush plate model before purchasing to ensure compatibility.

INSTALLATION GUIDE

Installation of the Siamp Ensemble Socle et Bras requires basic plumbing knowledge. If you are unsure about any step, it is recommended to consult a qualified professional.

1. **Preparation:** Ensure the water supply to the toilet cistern is turned off and the cistern is empty.
2. **Removal of Old Part:** Carefully detach the existing base and arm assembly from the flush plate. Note the orientation and connection points.
3. **Installation of New Part:** Align the new Siamp Ensemble Socle et Bras with the flush plate. Secure it firmly using the appropriate fasteners or clips. Ensure all connections are snug and correctly seated.
4. **Testing:** Slowly turn the water supply back on. Check for any leaks around the newly installed part. Perform several test flushes to ensure the mechanism operates smoothly and effectively.

For detailed visual instructions, refer to the original installation manual of your SIAMP Verso 350 or Verso 1100 flush plate, or seek professional assistance.

OPERATION

The Siamp Ensemble Socle et Bras is a mechanical component that facilitates the operation of your toilet's flush mechanism. It does not have independent operational controls. Its function is integrated into the overall flush system, activated by pressing the flush button or lever of your compatible SIAMP Verso 350 or Verso 1100 flush plate.

MAINTENANCE

To ensure the longevity and proper functioning of your Siamp Ensemble Socle et Bras, consider the following maintenance tips:

- **Regular Cleaning:** Periodically clean the visible parts of the flush plate and surrounding area with a mild, non-abrasive cleaner. Avoid harsh chemicals that could damage the plastic.
- **Inspection:** Occasionally inspect the base and arm assembly for any signs of wear, cracks, or loose connections. Address any issues promptly to prevent further damage.
- **Avoid Force:** Do not apply excessive force when operating the flush mechanism, as this can stress the plastic components.

TROUBLESHOOTING

If you experience issues with your flush mechanism after installing or using the Siamp Ensemble Socle et Bras, consider these troubleshooting steps:

- **Flush Not Activating:**
 - Ensure the base and arm assembly is correctly seated and connected to the flush plate.
 - Verify that the flush plate itself is not damaged or stuck.
 - Check if the water supply to the cistern is fully open.
- **Leaks:**
 - Confirm all connections are tight and properly sealed.
 - Inspect the part for any visible cracks or manufacturing defects.
- **Part Does Not Fit:**

- Double-check the compatibility section. This part is only for SIAMP Verso 350 and Verso 1100 models.
- Ensure you have the correct original part reference (SIAMP 34 1133 07).

If problems persist, contact SIAMP customer support or a qualified plumber.

WARRANTY AND SUPPORT

For information regarding the warranty of your Siamp Ensemble Socle et Bras, please refer to the warranty documentation provided at the time of purchase or contact your retailer. As an original SIAMP part, it is typically covered under the manufacturer's standard warranty for replacement parts.

For technical support or further assistance, please contact SIAMP customer service directly or the authorized seller from whom you purchased the product. Provide your model number (part_B013TCHW06) and the original part reference (34 1133 07) when seeking support.
