UNNI CB-2.6G-100

UNNI Compostable Liner Bags Instruction Manual

Model: CB-2.6G-100

Product Overview

UNNI Compostable Liner Bags are designed for managing kitchen food scraps and other organic waste. These bags are certified to meet compostability standards in both the U.S. and Europe, providing an eco-conscious alternative to traditional plastic bags. Each roll contains 100 bags, with a capacity of 2.6 gallons (9.84 liters) and an extra thick 0.71 mil construction for durability.

Setup

1. **Unpack the Box:** Open the UNNI Compostable Liner Bags box. The bags are dispensed from a roll inside the box, similar to tissue boxes.
2. **Dispense a Bag:** Gently pull a single bag from the opening at the top of the box. The bags are perforated for easy separation.
3. **Prepare Your Compost Bin:** These 2.6-gallon bags are ideally sized for small kitchen compost bins or countertop food scrap containers. Line your compost bin with one bag, ensuring the edges are folded over the rim to secure it.

Operating Instructions

- **Collecting Food Scraps:** Use the lined compost bin to collect food scraps such as fruit and vegetable peels, coffee grounds, eggshells, and other organic kitchen waste.
- **Avoid Excessive Liquids:** While the bags are extra thick, excessive liquids can accelerate the composting process of the bag itself. Drain wet food scraps before placing them in the bag to maintain bag integrity for longer periods.
- **Sealing the Bag:** Once the bag is full or when ready for disposal, gather the top edges of the bag and tie a knot to seal the contents securely.

- **Disposal:** Dispose of the sealed bag in a designated compost collection bin. These bags are certified for industrial composting (ASTM D6400, BPI Certified) and home composting (TÜV Austria OK compost HOME Certified).

Maintenance and Storage

- **Storage Conditions:** Store UNNI Compostable Liner Bags in a cool, dry place. Avoid exposure to excessive heat or direct sunlight, as this can degrade the material prematurely.
- **Shelf Life:** For optimal performance and compostability, use the bags within 1 year of purchase.
- **Bin Cleaning:** Regularly clean your compost bin to prevent odor buildup and maintain hygiene, even when using liner bags.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Bag tearing or leaking prematurely	Exposure to excessive moisture or heat; bag stored too long; overfilling.	Ensure wet food scraps are drained. Store bags in a cool, dry place and use within 1 year. Avoid overfilling bags.
Bags difficult to separate from roll	May occur if stored in humid conditions or due to static.	Gently separate along the perforation. Store in a dry environment.

Issue	Possible Cause	Solution
Bag not composting as expected	Commercial composting facilities vary; home composting conditions may not be ideal.	Verify local commercial composting facility acceptance. For home composting, ensure proper balance of green/brown materials, moisture, and aeration.

Specifications

Feature	Detail
Brand	UNNI
Model Number	CB-2.6G-100
Capacity	2.6 Gallons (9.84 Liters)
Thickness	0.71 Mils (18.0 microns)
Count	100 Bags per Roll
Dimensions (L x W x H)	4.6 x 4.13 x 4.06 inches (Box)
Bag Size (W x L)	16.3 in x 16.5 in (41.4 cm x 41.9 cm)
Material	Compostable material
Color	Green
Certifications	ASTM D6400 (US BPI Certified), TÜV Austria OK compost HOME Certified, CMA Verified
Recommended Use	Small Kitchen Food Scrap Waste, Yard Waste
