Q: How do I setup my BOOM 2?

You can connect your BOOM 2 to your smartphone, tablet or other device using either Bluetooth or the auxiliary input.

Bluetooth

Out of the package, your BOOM 2 is ready to pair with your first Bluetooth device. Here's how:

1. Turn the speaker on by pressing the power button on the top of the speaker. The power indicator will glow white, the Bluetooth status light (below the power button) will blink white rapidly, and you will hear a tone indicating the speaker is ready to pair.
2. On your Bluetooth device, go to the Bluetooth menu, and scan for devices (make sure Bluetooth is enabled).
3. Select **BOOM 2** from the list of devices.

NOTE: BOOM 2 volume is set to maximum when you pair it to an iOS device for the first time. Once paired and connected, you'll hear an audible confirmation from the speaker. This means your BOOM 2 is ready to use. You can pair additional devices with your speaker, see "Pairing additional Bluetooth devices with my BOOM 2".

Auxiliary Input

1. Turn the speaker on by pressing the power button on the top of the speaker.
2. Connect the speaker to your Bluetooth device using a 3.5mm audio cable (not included).

NOTE: Use only a 3-pole (two-microphone or mono) stereo cable. NOTE: If a Bluetooth device is connected to the BOOM 2 while playing audio from an auxiliary connection, the Bluetooth
