WowWee 0435

WowWee REV Smart Ramp Instruction Manual

Model: 0435

1. INTRODUCTION

The WowWee REV Smart Ramp is an accessory designed to enhance the gameplay experience with WowWee R.E.V. (Robotic Enhanced Vehicles) cars. This ramp integrates BeaconSense technology to interact with R.E.V. vehicles and the R.E.V. app, enabling various in-game stunts and battle modifications. This manual provides instructions for setup, operation, and maintenance of your Smart Ramp.

2. WHAT'S IN THE BOX

Please check the contents of your package. It should include:

- 1 x WowWee REV Smart Ramp

Note: R.E.V. vehicles are sold separately and are required for full functionality.

3. SETUP

3.1 Battery Installation

The REV Smart Ramp requires 4 "AAA" batteries (not included) for operation.

1. Locate the battery compartment on the underside of the Smart Ramp.
2. Using a Phillips head screwdriver, unscrew the battery compartment cover.
3. Insert 4 new "AAA" batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Replace the battery compartment cover and secure it with the screw.

3.2 Placement

Place the Smart Ramp on a flat, stable surface where you intend to play with your R.E.V. vehicles. Ensure there is sufficient clear space around the ramp for vehicles to approach and land safely.

4. OPERATING INSTRUCTIONS

The Smart Ramp interacts with your R.E.V. vehicles and the R.E.V. app to provide dynamic gameplay elements. Ensure your R.E.V. vehicles are powered on and connected to the app.

4.1 Connecting to R.E.V. Vehicles and App

The Smart Ramp uses BeaconSense technology to automatically connect with nearby R.E.V. vehicles and the R.E.V. app. No manual pairing is typically required for the ramp itself.

4.2 In-Game Features

When R.E.V. vehicles interact with the Smart Ramp, various effects can be triggered within the R.E.V. game:

- **BOOST:** Jumping over the ramp can allow your R.E.V. vehicle to collect new weapons or gain speed boosts.
- **HEALTH RECHARGE:** Successfully leaping over the ramp may trigger a health regeneration for your vehicle.
- **HACK:** The ramp can be 'taken over' in-game, allowing it to damage enemy vehicles as they pass or jump over it.

Refer to the R.E.V. app for specific game modes and how the Smart Ramp integrates into each.

5. MAINTENANCE

5.1 Cleaning

To clean the Smart Ramp, gently wipe it with a dry, soft cloth. Do not use harsh chemicals or abrasive cleaners, as these can damage the surface or electronic components.

5.2 Storage

Store the Smart Ramp in a cool, dry place away from direct sunlight and extreme temperatures. If storing for an extended period, remove the batteries to prevent leakage.

6. TROUBLESHOOTING

6.1 Ramp Not Responding

- **Check Batteries:** Ensure batteries are correctly installed and not depleted. Replace if necessary.
- **Vehicle Proximity:** Ensure R.E.V. vehicles are within range and properly connected to the R.E.V. app.
- **Interference:** Move the ramp and vehicles away from other electronic devices that might cause interference.

6.2 Vehicles Not Jumping Correctly

- **Ramp Placement:** Ensure the ramp is on a flat, stable surface and not shifting during vehicle approach.
- **Vehicle Speed:** Vehicles may need to approach the ramp at a sufficient speed to achieve a proper jump. Adjust in-app settings or driving technique.

7. SPECIFICATIONS

- **Model Number:** 0435
- **Product Dimensions:** 6 x 1.5 x 9 inches
- **Item Weight:** 1.1 pounds
- **Power Source:** 4 x "AAA" batteries (not included)
- **Recommended Age:** 8 - 15 years
- **Technology:** BeaconSense

8. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the official WowWee website or contact their customer service department. Keep your purchase receipt as proof of purchase.
