

Catit Catit Flower Fountain

Catit LED Flower Fountain User Manual

Model: Catit Flower Fountain

INTRODUCTION

Thank you for choosing the Catit LED Flower Fountain. This fountain is designed to provide your cat with a continuous supply of fresh, filtered water, encouraging healthy hydration habits. Its unique design and triple action filtration system ensure clean and great-tasting water for your feline companion.

SAFETY INFORMATION

- Always unplug the fountain before cleaning or performing maintenance.
- Ensure the power cord is not damaged and is placed where it cannot be tripped over or chewed by pets.
- Do not operate the fountain if the pump is making excessive noise, as this may indicate a low water level. Refill immediately.
- This product is designed for indoor use only.
- Keep out of reach of children.
- The fountain is made of BPA-free materials, ensuring safety for your pet.

COMPONENTS

The Catit LED Flower Fountain typically includes the following components:

- Water Reservoir (Base)
- Pump with Power Cord
- Filter Tray
- Triple Action Filter
- Flower Top / Spout
- Flower Stem (for different flow settings)

SETUP

1. **Rinse Filter:** Before first use, thoroughly rinse the Triple Action Filter under cold tap water for 10 minutes. This helps remove any loose carbon dust.
2. **Assemble Pump:** Place the pump securely in the designated area within the water reservoir. Ensure

the power cord is routed through the provided channel.

3. **Install Filter:** Insert the rinsed Triple Action Filter into the filter tray.
4. **Place Filter Tray:** Position the filter tray with the filter onto the pump assembly inside the reservoir.
5. **Fill with Water:** Fill the reservoir with fresh water up to the maximum fill line. The fountain has a 3-liter capacity.
6. **Attach Flower Top:** Place the flower top onto the filter tray, ensuring it is seated correctly.
7. **Plug In:** Connect the power cord to a suitable electrical outlet. The fountain will begin operating.

OPERATING

The Catit LED Flower Fountain offers multiple water flow settings to cater to your cat's preference:

- **Gentle Flow:** Use the fountain without the flower stem for a gentle, bubbling surface.
- **Bubbling Top:** Insert the flower stem without the yellow center for a calm, bubbling water surface.
- **Flowing Streams:** Insert the flower stem with the yellow center for multiple flowing water streams,

mimicking a faucet.

Observe your cat to determine their preferred drinking method. Regular drinking is crucial for feline health, helping to prevent urinary tract diseases.

3 water flow settings for picky drinkers

Encourages cats to
drink more, which

MAINTENANCE

Regular cleaning and filter replacement are essential for maintaining the fountain's performance and your cat's health.

Weekly Cleaning:

1. Unplug the fountain and disassemble all components (flower top, filter tray, filter, pump, reservoir).
2. Wash all parts (except the pump) with warm water and a mild soap. Rinse thoroughly to remove any soap residue.
3. Clean the pump by disassembling it and rinsing all internal parts. Use a small brush to remove any

debris or mineral buildup.

4. Reassemble the fountain as per the setup instructions.

Filter Replacement:

The Triple Action Filter should be replaced approximately every 3-4 weeks, or more frequently if the fountain is used by multiple cats or if the water appears dirty.

- Unplug the fountain and remove the old filter.
- Rinse the new filter under cold tap water for 10 minutes before placing it in the filter tray.
- Dispose of the old filter responsibly.
