Auris AU141

Auris Blume HD Bluetooth Music Receiver User Manual

Model: AU141 | Brand: Auris

INTRODUCTION

The Auris Blume HD Bluetooth Music Receiver is a high-fidelity audio adapter designed to wirelessly stream premium sound from your Bluetooth-enabled devices to any home stereo system, AV receiver, or amplifier. It features advanced Bluetooth 5.3 technology, audiophile-grade DAC, and extended range capabilities to enhance your listening experience.

KEY FEATURES

- **Upgrade Existing Stereo Systems:** Transforms any home stereo system into a high-fidelity Bluetooth audio receiver, allowing wireless streaming from phones, tablets, or computers.
- **Stunning High-Quality Audio:** Features Bluetooth 5.3 and supports Qualcomm aptX HD, aptX Low Latency, LDAC, and AAC decoding for high-definition audio.
- **Best-in-Class Sound:** Incorporates a true Hi-Fi 384kHz/32-bit upsampling Audiophile Digital to Analogue Converter (DAC) for lossless audio playback.
- **Long Range Bluetooth:** Equipped with special circuitry and a precision-tuned antenna, extending the wireless range up to 100+ feet for glitch-free performance through multiple walls.
- **Digital & Analog Connectivity:** Offers versatile connectivity with audiophile-grade Analog (RCA) and Digital Optical (SPIDIF) outputs.

PACKAGE CONTENTS

Please check the package for the following items:

- Auris Blume HD Bluetooth Music Receiver
- Power Adapter (5V DC)
- RCA Audio Cable
- Optical Audio Cable (TOSLINK)
- User Manual (this document)

SETUP GUIDE

Follow these steps to set up your Auris Blume HD receiver:

1. **Connect to Power:** Connect the provided 5V DC power adapter to the "5V DC In" port on the back of the Blume HD unit and plug it into a wall outlet. The power indicator light will illuminate.
2. **Connect to Audio System:**
 - **Using RCA (Analog):** Connect one end of the RCA audio cable to the "Analog Audio Out" ports (Red for Right, White for Left) on the Blume HD. Connect the other end to an available analog input (e.g., AUX, CD, Tuner) on your stereo system or amplifier.
 - **Using Optical (Digital):** Connect one end of the optical audio cable to the "Digital Audio Out" port on the Blume HD. Connect the other end to an available optical input on your stereo system or amplifier.

SEAMLESS INTEGRATION

DESIGNED FOR CONNECTIVITY

- Designed to integrate perfectly with your favorite products for true Hi-Res audio
- Equipped with both Analog and Digital outputs

OPERATING INSTRUCTIONS

1. **Power On:** Press the power button on the front of the Auris Blume HD unit. The LED indicator will light up.
2. **Pairing Mode:** The Blume HD will automatically enter pairing mode when powered on for the first time or if no device is connected. The LED indicator will flash.
3. **Connect Your Device:**
 - On your smartphone, tablet, or computer, go to the Bluetooth settings.
 - Search for new devices and select "Auris Blume HD" from the list.

- Once connected, the LED indicator on the Blume HD will turn solid.

bluMe HD

REKINDLE YOUR HI-FI STEREO SYSTEM

PREMIUM HI-FI BLUETOOTH MUSIC RECEIVER

- Breathe new life into your decades-old stereo equipment.
- Stream Hi-Res audio wirelessly from your Bluetooth enabled device to any music system or powered speakers.

Image: The Auris Blume HD positioned on a home stereo receiver, demonstrating its integration into an existing audio setup.

- Play Music:** Start playing audio from your connected device. The sound will be transmitted wirelessly to your stereo system through the Blume HD.
- Disconnecting/Reconnecting:** To disconnect, turn off Bluetooth on your device or power off the Blume HD. To reconnect, simply enable Bluetooth on your device, and the Blume HD will automatically connect if it's within range and powered on.

MAINTENANCE

To ensure the longevity and optimal performance of your Auris Blume HD, please follow these maintenance guidelines:

- Cleaning:** Use a soft, dry cloth to clean the exterior of the unit. Do not use liquid cleaners or aerosols.
- Placement:** Place the unit on a stable, flat surface away from direct sunlight, heat sources, and excessive moisture. Ensure adequate ventilation.
- Handling:** Avoid dropping the unit or subjecting it to strong impacts.
- Power:** Use only the provided power adapter.

TROUBLESHOOTING

If you encounter any issues with your Auris Blume HD, please refer to the following common solutions:

Problem	Possible Solution
No power/LED not lit	Ensure the power adapter is securely connected to both the unit and a working power outlet. Try a different outlet.
Cannot pair with device	Ensure the Blume HD is in pairing mode (flashing LED). Turn off and on Bluetooth on your source device. Move your device closer to the Blume HD. Clear previous Bluetooth connections on your device. Restart both the Blume HD and your source device.
No audio output	Verify that the Blume HD is successfully paired and connected to your source device. Check all audio cable connections (RCA or Optical) between the Blume HD and your stereo system. Ensure your stereo system is set to the correct input source. Adjust the volume on both your source device and your stereo system. Test with a different audio cable if possible.
Audio dropouts or poor quality	Reduce the distance between the Blume HD and your source device. Remove any obstacles (walls, large metal objects) between the devices. Ensure the antenna is properly positioned. Minimize interference from other wireless devices (Wi-Fi routers, microwaves).

SPECIFICATIONS

Feature	Detail
Product Dimensions	3.5 x 2.95 x 1 inches
Item Weight	5.1 ounces
Model Number	AU141
Wireless Communication Technologies	Bluetooth 5.3
Connectivity Technologies	RCA, Bluetooth
