# Honda HRR216 Series Walk-Behind Lawn Mower Rear Safety Shield Kit

Instruction Manual

## 1. INTRODUCTION

---

This manual provides essential information for the proper installation, use, and maintenance of your Honda Rear Safety Shield Kit. This kit is designed to replace the rear safety shield on compatible Honda HRR216 series walk-behind lawn mowers, ensuring continued safe operation and compliance with safety standards. Please read these instructions thoroughly before proceeding with installation or use.

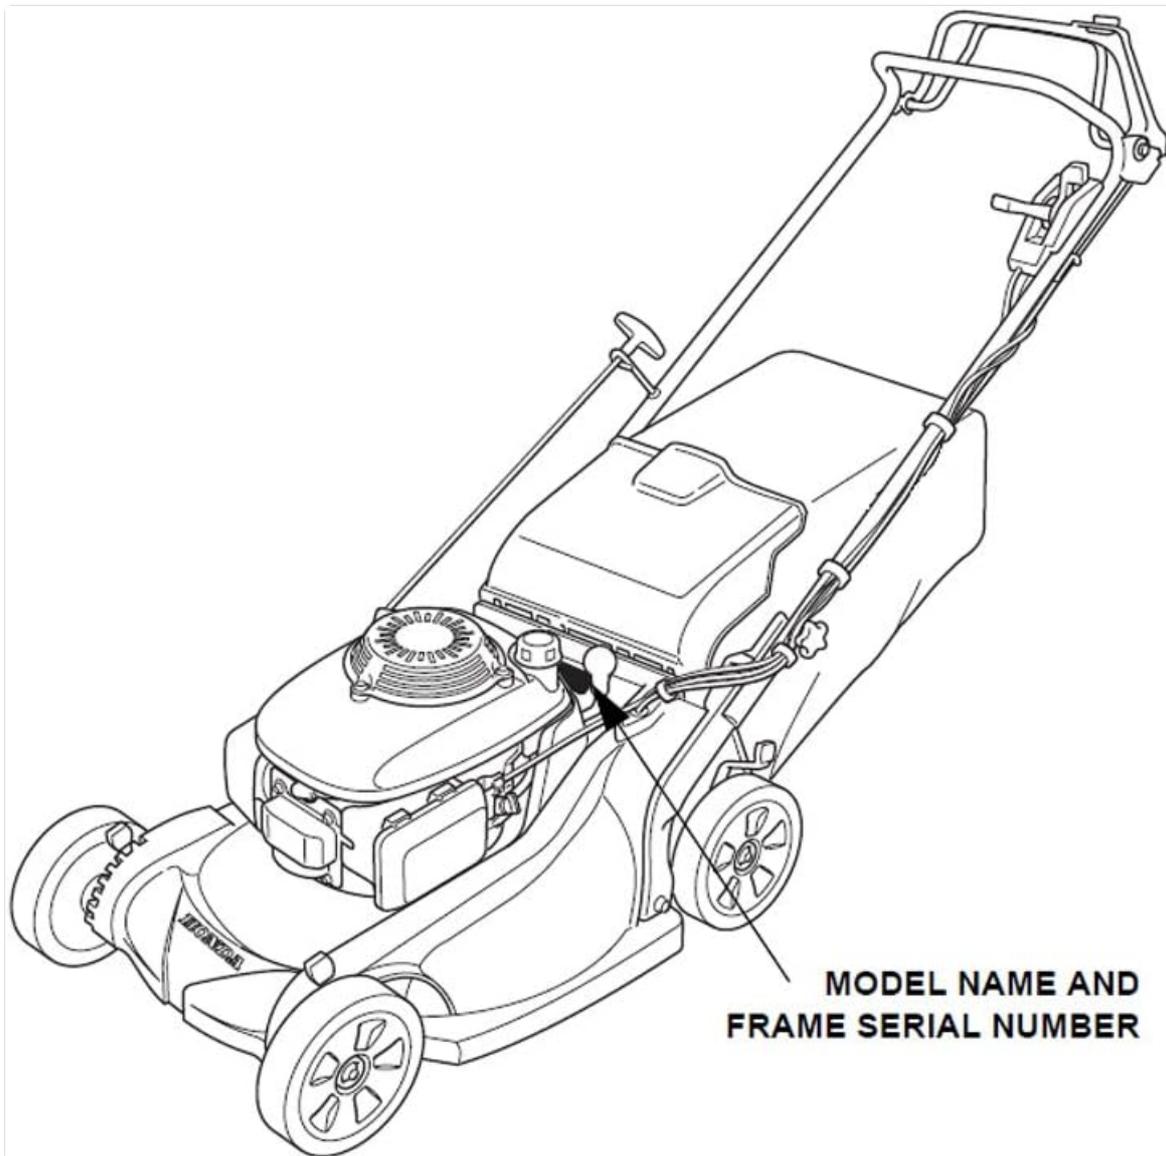

## 2. COMPATIBILITY

---

This Rear Safety Shield Kit is specifically designed for the following Honda HRR216 series walk-behind lawn mower models:

- HRR216PDA
- HRR216S3DA
- HRR216SDA
- HRR2162PDA
- HRR2162SDA
- HRR2162TDA
- HRR2162TKA

**Important:** This kit is compatible with lawn mowers within the frame serial number range **oMZCG-6000001 to MZCG-7199999**. Verify your mower's serial number before installation.

**Image 2.1:** Location of Model Name and Frame Serial Number on a Honda Lawn Mower. This diagram illustrates where to find the necessary identification numbers on your equipment to confirm compatibility.

### **3. SAFETY INFORMATION**

---

Always prioritize safety when working with power equipment. Before beginning any installation or maintenance:

- Ensure the lawn mower engine is off and cool.
- Disconnect the spark plug cap to prevent accidental starting.
- Wear appropriate personal protective equipment, including gloves and eye protection.
- Refer to your lawn mower's original owner's manual for additional safety precautions.

### **4. PACKAGE CONTENTS**

---

The Honda Rear Safety Shield Kit includes the genuine OEM rear safety shield and any necessary hardware for installation. Please inspect the package upon receipt to ensure all components are present and undamaged.

**Image 4.2:** Genuine Honda Part Packaging. This image shows the official packaging, confirming the authenticity of the Honda replacement part.

## 5. INSTALLATION (SETUP)

Follow these general steps for installing the rear safety shield. Specific instructions may vary slightly by mower model; always consult your mower's service manual if detailed diagrams are required.

1. **Prepare the Mower:** Ensure the engine is off, cool, and the spark plug cap is disconnected.

Position the mower on a flat, stable surface.

2. **Remove Old Shield:** Carefully locate and remove the fasteners securing the old rear safety shield. Note the orientation of the old shield for correct installation of the new one.
3. **Clean Area:** Clean any debris or grass clippings from the mounting area before installing the new shield.
4. **Install New Shield:** Position the new Honda Rear Safety Shield in place. Secure it using the provided new hardware or the original fasteners if they are in good condition. Ensure the shield is properly aligned and securely fastened to prevent movement during operation.
5. **Verify Installation:** Gently tug on the installed shield to confirm it is firmly attached and does not interfere with any moving parts.

## 6. OPERATION (PRE-USE INSPECTION)

---

Before each use of your lawn mower, perform a quick inspection of the rear safety shield:

- **Check for Damage:** Inspect the shield for any cracks, tears, or excessive wear.
- **Verify Security:** Ensure the shield is still firmly attached and all fasteners are tight.
- **Clear Debris:** Remove any accumulated grass or debris from around the shield.

A properly functioning rear safety shield is crucial for preventing debris from being ejected towards the operator's feet during mowing.

## 7. MAINTENANCE

---

Regular maintenance of your rear safety shield will extend its lifespan and ensure continued safety:

- **Cleaning:** After each use, clean the shield with a damp cloth to remove grass clippings and dirt. Avoid harsh chemicals that could degrade the material.
- **Inspection:** Periodically inspect the shield for signs of wear, fatigue, or damage. Pay close attention to mounting points.

## 8. TROUBLESHOOTING (WHEN TO REPLACE)

---

The rear safety shield is a wear item and may require replacement over time. Consider replacing the shield if you observe any of the following:

- Visible cracks, tears, or holes in the material.
- Excessive stiffness or brittleness of the rubber, indicating material degradation.
- The shield no longer returns to its original position after being deflected.
- Mounting points are damaged, preventing secure attachment.

Prompt replacement of a damaged safety shield is essential for maintaining operator safety.

## 9. SPECIFICATIONS

---

Attribute	Detail
Product Dimensions	17 x 5 x 0.5 inches

Item Weight	10 ounces
Manufacturer	Honda
Item Model Number (Kit)	81818216001596698
Compatible Mower Models	HRR216PDA, HRR216S3DA, HRR216SDA, HRR2162PDA, HRR2162SDA, HRR2162TDA, HRR2162TKA
Compatible Frame Serial Range	MZCG-6000001 to MZCG-7199999

## 10. WARRANTY AND SUPPORT

---

This product is a genuine Honda OEM part. For warranty information or technical support, please refer to the documentation provided with your original Honda lawn mower or contact an authorized Honda service dealer. Keep your purchase receipt for warranty purposes.
