STAR WARS Li-B56E7.EM

STAR WARS First Order TIE Fighter Bluetooth Speaker

MODEL: LI-B56E7.EM

Introduction

Welcome to the instruction manual for your STAR WARS First Order TIE Fighter Bluetooth Speaker. This speaker is designed to provide high-quality audio and an immersive experience for Star Wars enthusiasts. Please read this manual carefully to ensure proper use and maintenance of your device.

Package Contents

- 1 x Special Forces TIE Fighter Bluetooth Speaker
- 1 x USB Charging Cable
- 1 x 3.5mm Aux-in Cable
- 1 x Instruction Manual

Product Overview

The STAR WARS First Order TIE Fighter Bluetooth Speaker is a detailed replica that functions as a portable audio device. Key components include the main speaker unit, power controls, and connectivity ports.

Setup

Charging the Speaker

Before first use, fully charge the speaker. Connect the small end of the provided USB charging cable to the speaker's charging port and the larger end to a powered USB port (e.g., computer, USB wall adapter). The charging indicator light will illuminate during charging and turn off when fully charged. A full charge provides approximately 10 hours of audio playback.

Powering On/Off

Press and hold the **Power Button** (typically located on the main body of the TIE Fighter) for a few seconds until you hear an audible cue and the indicator lights activate. Repeat this action to power off the speaker.

Operating Instructions

Bluetooth Pairing

1. Ensure the speaker is powered on and in Bluetooth pairing mode. The indicator light will typically flash rapidly, indicating it is discoverable.
2. On your Bluetooth-enabled device (smartphone, tablet), navigate to the Bluetooth settings menu.
3. Enable Bluetooth and search for available devices.
4. Select "**STAR WARS TIE Fighter Speaker**" from the list of found devices.
5. Once successfully paired, the speaker will emit a confirmation sound, and the indicator light will become solid.
6. The speaker includes the "Star Wars (Main theme)" song, which may play upon connection or activation.

Aux-in Connection

For devices without Bluetooth, use the provided 3.5mm Aux-in cable:

1. Connect one end of the 3.5mm audio cable to the speaker's **AUX-in port**.
2. Connect the other end to the headphone jack or audio output port of your external audio device.
3. The speaker will automatically switch to AUX-in mode, and audio will play from your connected device.

Call Feature (Speakerphone)

When your speaker is connected to a smartphone via Bluetooth, you can use it as a speakerphone:

1. When an incoming call is received, the music playback will pause.
2. Press the **Call Button** (or the main function button) on the speaker to answer the call.
3. Speak clearly towards the speaker.
4. Press the **Call Button** again to end the call. Music playback will resume automatically.

Maintenance

- Clean the speaker's exterior with a soft, dry cloth. Avoid using abrasive cleaners, solvents, or strong chemicals, as these can damage the finish.
- Keep the speaker away from water, excessive moisture, and extreme temperatures to prevent damage to internal components. This product is not waterproof.
- When not in use for extended periods, store the speaker in a cool, dry place.
- Do not attempt to disassemble or modify the speaker, as this will void the warranty and may cause damage.

Troubleshooting

Problem	Solution
Speaker does not power on.	Ensure the battery is charged. Connect the speaker to a power source using the USB charging cable.
No sound from the speaker.	Check the volume levels on both the speaker and the connected device. Verify that the Bluetooth device is properly paired or the AUX-in cable is securely connected.

Problem	Solution
Bluetooth connection is unstable or disconnects.	Move the speaker closer to the Bluetooth device, ensuring it is within the 30-foot range. Avoid obstacles between the speaker and the device. Try re-pairing the device.
Poor sound quality.	Ensure the speaker is placed on a stable surface. Check for potential interference from other electronic devices.

Specifications

Brand: STAR WARS (by Ekids LLC)

Model Number: Li-B56E7.EM

Speaker Maximum Output Power: 25 Watts

Connectivity Technology: Bluetooth, USB, Wireless

Audio Output Mode: Stereo

Mounting Type: Tabletop Mount

Speaker Type: Bookshelf

Additional Features: Portable

Battery Average Life: 10 Hours

Waterproof: No

Maximum Range (Bluetooth): 30 Feet

Control Method: Touch

Item Dimensions (D x W x H): 6.2" x 9.2" x 10.9"

Item Weight: 9.07 g

Compatible Devices: Smartphone, Tablet

Audio Driver Type: Dynamic Driver

Power Source: Battery Powered (1 Lithium Polymer battery included)
