4. ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward. It is recommended to have a second person assist with assembly for easier handling of components. An Allen wrench is typically included for assembly, but using Allen wrench bits with a screwdriver can make the process easier.

General Assembly Tips:

- Lay out all parts on a soft, clean surface (e.g., the cardboard packaging) to prevent scratching.
- Do not fully tighten all bolts until all components are loosely assembled and aligned. This allows for adjustments to ensure the table and chairs are square and stable.
- For the table, assemble the frame first, then carefully place the glass top.
- For chairs, assemble the frame and seat, then tighten all bolts.

8. TROUBLESHOOTING

This section addresses common issues you might encounter with your dining set.

Common Issues and Solutions:

- **Wobbly Table or Chairs:**

Ensure all bolts are securely tightened. If the issue persists, loosen all bolts slightly, place the item on a flat surface, apply even pressure, and then re-tighten all bolts. This helps to square the frame.

- **Missing Hardware:**

If any screws or other hardware are missing from the accessory bag, please contact VECELO customer service for replacements.

- **Glass Top Damage/Breakage:**

Tempered glass is designed to be durable but can break under extreme stress or temperature changes. Avoid

placing very hot items directly on the glass without protection. If the glass breaks, handle with extreme caution as it shatters into small, less sharp pieces. Contact customer service for replacement options.
