

SINGCALL APE520

SINGCALL APE520 1-Button Pager User Manual

Model: APE520

1. INTRODUCTION

The SINGCALL APE520 is a versatile 1-button wireless pager designed to facilitate efficient communication in various environments, including home care, hotels, restaurants, and other service-oriented settings. This pager is part of a larger wireless calling system and must be used in conjunction with a compatible SINGCALL receiver (such as wrist receivers or fixed hosts) to function. Its robust design features a large, sensitive touch button and a waterproof construction, ensuring reliable performance and ease of use.

2. SAFETY INFORMATION

Please read all safety instructions carefully before using the product. Keep this manual for future reference.

WARNING:

CHOKING HAZARD - Small parts not for children under 3 years or any individuals who have a tendency to place inedible objects in their mouths.

WARNING:

ERSTICKUNGSGEFAHR - Kleinteile, nicht für Kinder unter 3 Jahren oder Personen, die dazu neigen, ungenießbare Gegenstände in den Mund zu nehmen.

AVVERTIMENTO:

PERICOLO DI SOFFOCAMENTO - Piccole parti non adatte a bambini di età inferiore a 3 anni o a qualsiasi individuo che abbia la tendenza a mettere in bocca oggetti non commestibili.

ADVERTENCIA:

PELIGRO DE ASFIXIA - piezas pequeñas, no aptas para niños menores de 3 años o cualquier persona que tenga tendencia a llevarse objetos no comestibles a la boca.

VARNING:

KVÄVNINGSRISK - Små delar är inte avsedda för barn under 3 år eller personer som har en tendens att stoppa oätliga föremål i munnen.

UYARI:

BOĞULMA TEHLİKESİ - 3 yaşından küçük çocuklar veya ağızlarına yenmeyen cisimler koyma eğilimi olan kişiler için olmayan küçük parçalar.

WAARSCHUWING:

BIJSLUITINGSGEVAAR - Kleine onderdelen niet geschikt voor kinderen onder de 3 jaar of personen die de neiging hebben om niet eetbare voorwerpen in hun mond te stoppen.

AVERTISSEMENT:

RISQUE D'ÉTOUFFEMENT - Petites pièces ne conviennent pas aux enfants de moins de 3 ans ou aux personnes qui ont tendance à placer des objets non comestibles dans leur bouche.

OSTRZEŻENIE:

RYZYKO ZADŁAWIENIA - Małe części nie są przeznaczone dla dzieci poniżej 3 roku życia ani osób, które mają tendencję do wkładania niejadalnych przedmiotów do ust.

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years or any individuals who have a tendency to place inedible objects in their mouths. Ensure the pager is kept out of reach of small children.

3. PRODUCT COMPONENTS

The SINGCALL APE520 1-Button Pager package typically includes:

- 1 x SINGCALL APE520 1-Button Pager
- User Manual (this document)
- Required battery (1 x CR2 battery, may be pre-installed or included separately)

Note: Compatible receivers (e.g., wristwatches, display panels) are sold separately and are required for the system to function.

Figure 3: SINGCALL APE520 1-Button Pager (Back View)

4. SETUP AND PAIRING

4.1 Battery Installation

The APE520 pager requires one CR2 battery. To install or replace the battery:

1. Carefully remove the back cover of the pager.
2. Insert the CR2 battery, ensuring correct polarity (+/-).
3. Securely reattach the back cover. The simple pushing bottom base design allows for easy battery changes without screws.

4.2 Pairing with a Receiver

The APE520 pager must be paired with a compatible SINGCALL receiver (e.g., APE6900 watch receiver, fixed display receiver) to operate. The pairing process typically involves setting the receiver into a pairing mode and then

activating the pager. Refer to your specific SINGCALL receiver's manual for detailed pairing instructions. A general pairing sequence is as follows:

1. Put your SINGCALL receiver into pairing mode (e.g., press a 'SET' or 'CODE' button on the receiver).
2. While the receiver is in pairing mode, press the 'CALL' button on the APE520 pager.
3. The receiver should display a confirmation (e.g., a number or 'OK') indicating successful pairing.
4. Exit pairing mode on the receiver.

Your browser does not support the video tag.

Video 1: Demonstration of pairing a SINGCALL pager (including APE520) with a SINGCALL receiver. This video illustrates the process of activating the pager and observing the receiver's response during pairing.

The video demonstrates the pairing of various SINGCALL pagers, including the APE520, with a wrist receiver. It shows how pressing the pager button transmits a signal that is received and displayed on the wrist receiver, confirming successful connection. This process is crucial for the system's functionality.

5. OPERATING INSTRUCTIONS

Using the SINGCALL APE520 pager is straightforward:

1. Place the pager in a convenient location where service is required (e.g., on a table, by a bed).
2. When service is needed, simply press the large 'CALL' button firmly.
3. Upon pressing, the pager will transmit a signal to the paired receiver(s). A small indicator light on the pager may illuminate briefly to confirm transmission.
4. The receiver will then display the pager's identification number, alerting staff or caregivers to the call.

Figure 4: Pager in use at a restaurant table.

The APE520 pager is designed for simple, one-touch operation, making it ideal for quick and efficient service requests in various settings. Its large, responsive button ensures ease of use for all users.

6. MAINTENANCE

6.1 Cleaning

To clean the pager, wipe it with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these may damage the surface or internal components. Ensure the pager is dry before re-installing the battery cover.

6.2 Battery Replacement

When the pager's signal becomes weak or it stops responding, it may be time to replace the CR2 battery. Follow the battery installation steps in Section 4.1. The pager's design allows for easy battery changes.

6.3 Waterproof Feature

The APE520 pager features a 360-degree waterproof design, making it resistant to splashes and spills. This feature ensures durability in environments where liquids may be present, such as restaurants or hospitals. However, it is not designed for prolonged submersion.

Figure 5: Waterproof design of the APE520 pager.

7. TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|--|--|--|
| Pager does not respond when pressed. | Battery is dead or incorrectly installed. | Replace the CR2 battery, ensuring correct polarity. |
| Receiver does not display call from pager. | Pager is not paired with the receiver, or pairing was lost. | Re-pair the pager with the receiver following the instructions in Section 4.2. Ensure the receiver is powered on and within range. |
| Signal is weak or inconsistent. | Pager is too far from the receiver, or there are significant obstructions (thick walls, metal structures). | Reduce the distance between the pager and receiver. Relocate the receiver to a more central position. Ensure the pager's battery is not low. |
| Receiver displays incorrect pager ID. | Possible interference or misconfiguration during pairing. | Clear the pager ID from the receiver (refer to receiver manual) and re-pair the pager. |

8. SPECIFICATIONS

| Feature | Detail |
|--------------------|---|
| Model | APE520 |
| Dimensions | 3.39 x 3.39 x 0.71 inches (8.6 x 8.6 x 1.8 cm) |
| Item Weight | 3.17 ounces (90 grams) |
| Battery Type | 1 x CR2 battery required |
| Voltage | 12 Volts |
| Compatible Devices | SINGCALL wireless wrist receivers and fixed hosts |
| Waterproof Rating | 360-degree waterproof handling (splash-resistant) |
| Button Type | Super big touching button (2-inch diameter) |
| Signal Stability | Stable and long distance signal transmission |
