7. TROUBLESHOOTING

This section addresses common inquiries regarding the COCOON Travel Blanket.

- **Issue: Blanket does not feel warm enough.**

Solution: Ensure the blanket is fully unfolded and draped properly. While designed for temperature regulation, its lightweight nature means it may not provide sufficient warmth in extreme cold conditions without additional layers.

- **Issue: Blanket feels scratchy after washing.**

Solution: Ensure only mild, wool-specific detergent was used and that the blanket was thoroughly rinsed. Hard water can sometimes affect fabric texture; consider using a water softener if this is a recurring issue.

- **Issue: Difficulty fitting blanket back into stuff sack.**

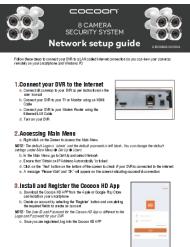

Solution: Fold the blanket lengthwise several times, then roll it tightly from one end to the other before attempting to insert it into the stuff sack.
