QUALITY AND PURITY

- **Re-esterified Triglyceride Form:** The Omega-3 fatty acids are delivered in re-esterified triglyceride (rTG) form, which has been shown to be more easily absorbed by the body compared to other forms.
- **Purified to Reduce Mercury:** The fish oil is purified to reduce PCBs, dioxins, furans, and mercury, ensuring levels are below IFOS set limits.
- **Wild-Caught Fish:** Made with wild-caught fish using sustainable fishing practices.
- **Certifications:** IFOS Certified and Labdoor Certified for quality, purity, and potency.
- **Dietary Information:** Gluten-free and non-GMO.

EASY TO ABSORB FORMULA!↑

Delivered in the bioavailable rTG form, shown to be more absorbable (Dyerberg et al., 2010)

Image: A visual comparison highlighting the superior absorption of the re-esterified triglyceride form.

QUALITY YOU CAN TRUST

We use a combination of small fish (like sardines, anchovies and mackerel), known to have less accumulation of mercury and other toxins than some bigger fish. Our softgels are gluten-free, Non-GMO and also IFOS Certified for quality, purity and potency, so you can be sure you're getting the highest quality

Image: Certifications and quality assurances, including IFOS and heavy metal testing.

STORAGE AND WARNINGS

Storage Information:
