3. SETUP

3.1 Unpacking

Carefully remove the Woll KU004 Cook It Cooking Spoon from its packaging. Inspect the spoon for any signs of damage. If any damage is observed, do not use the product and contact customer support.

3.2 Initial Cleaning

Before first use, wash the spoon thoroughly with warm soapy water and rinse well. This will remove any manufacturing residues.

4. OPERATING INSTRUCTIONS

The Woll KU004 Cook It Cooking Spoon is designed for general cooking and serving purposes. Its flexible silicone lip makes it ideal for stirring, mixing, and scraping ingredients from pots and pans without scratching non-stick surfaces.

4.1 General Use

Use the spoon for stirring sauces, mixing ingredients, serving food, and scraping the bottom and sides of cookware. The heat-resistant properties allow it to be used safely in hot pans and pots.

4.2 Heat Resistance

The spoon head and silicone lip are heat-resistant up to 260°C (500°F). While designed for high temperatures, avoid leaving the spoon resting in hot cookware for extended periods when not actively stirring, as this can prolong exposure to extreme heat.

5. CARE AND MAINTENANCE

Proper care and maintenance will extend the life of your Woll KU004 Cook It Cooking Spoon.

5.1 Cleaning

The Woll KU004 Cook It Cooking Spoon is dishwasher-safe. For best results, place it in the top rack of your dishwasher. Alternatively, it can be hand-washed with warm soapy water and a soft sponge. Rinse thoroughly and dry immediately to prevent water spots.

5.2 Storage

Store the spoon in a dry place, away from direct heat sources. The handle features a hanging hole for convenient storage on a utensil rack.

6. TROUBLESHOOTING

The Woll KU004 Cook It Cooking Spoon is a simple and durable utensil. Most issues can be resolved with basic care.

Table 6.1: Common Issues and Solutions

Issue	Possible Cause	Solution
Stains on silicone	Exposure to highly pigmented foods (e.g., tomato sauce, turmeric).	Wash immediately after use. For stubborn stains, try a baking soda paste or expose to sunlight.
Minor warping of silicone lip	Prolonged exposure to extreme heat or improper storage.	Ensure spoon is not left in hot pans unattended. Store flat or hanging.
Handle feels loose	Not applicable for this product as it's a single, reinforced piece.	If this occurs, it indicates a manufacturing defect. Contact customer support.
Scratches on cookware	Improper use or presence of abrasive particles.	Ensure the silicone lip is clean before use. The silicone is designed to be non-abrasive.
Unpleasant odor	Food residue or improper cleaning.	Wash thoroughly with warm soapy water. Ensure it is completely dry before storage.
Discoloration of handle	Exposure to strong chemicals or prolonged direct sunlight.	Avoid harsh cleaning agents. Store away from direct sunlight.
