

Baseus SUDYZP-D1S

Baseus Bluetooth Selfie Stick with Tripod and Remote Control

Model: SUDYZP-D1S

1. INTRODUCTION

Thank you for choosing the Baseus Bluetooth Selfie Stick with Tripod. This versatile device combines an extendable selfie stick with a stable tripod and a detachable Bluetooth remote control, allowing you to capture photos and videos with ease. Please read this manual carefully before use to ensure proper operation and to maximize your product experience.

2. PRODUCT OVERVIEW

The Baseus Selfie Stick with Tripod is designed for portability and functionality. It features a compact, foldable design that extends to 810mm, a 360-degree rotatable phone holder, and a removable Bluetooth remote for convenient shooting.

Figure 2.1: The Baseus Selfie Stick fully extended with a smartphone in tripod mode.

Figure 2.2: The selfie stick in its compact, folded form, highlighting the remote control.

3. SAFETY INFORMATION

- Do not expose the device to extreme temperatures or direct sunlight for prolonged periods.
- Keep the device away from water and other liquids.
- Do not attempt to disassemble or modify the device.
- Ensure your smartphone is securely mounted before extending the stick or using the tripod.
- Keep out of reach of children.

4. PACKAGE CONTENTS

Verify that all items are present in your package:

- Baseus Bluetooth Selfie Stick with Tripod (Black/Gray)
- Detachable Bluetooth Remote Control

5. SETUP

5.1 Unfolding and Extending the Selfie Stick

1. Gently pull the top part of the stick upwards to unfold it from its compact state.
2. Extend the telescopic rod segments to your desired length. The stick can extend up to 810mm.

5.2 Attaching Your Smartphone

1. Open the phone clamp at the top of the stick.
2. Carefully place your smartphone into the clamp, ensuring it is held securely. The clamp supports phones up to 6.5 inches.
3. Adjust the phone holder's angle and rotation (360 degrees) as needed.

Figure 5.1: Smartphone mounted horizontally in the clamp.

Figure 5.2: Smartphone mounted vertically in the clamp.

5.3 Bluetooth Pairing for Remote Control

1. Remove the remote control from its slot on the selfie stick.
2. Press and hold the button on the remote control until the indicator light starts flashing, indicating it is in pairing mode.
3. On your smartphone, go to Bluetooth settings and search for available devices.
4. Select "Baseus Selfie" or a similar name from the list to pair.
5. Once paired, the indicator light on the remote will stop flashing and remain solid or turn off.

6. OPERATING INSTRUCTIONS

6.1 Using as a Selfie Stick

Hold the handle firmly and extend the stick to your desired length. Use the Bluetooth remote control to take photos or start/stop video recording.

Figure 6.2: Example of a user taking a selfie with the stick.

6.2 Using as a Tripod

1. While the stick is folded or partially extended, gently push the bottom part to deploy the tripod legs.
2. Place the tripod on a flat, stable surface.
3. Adjust the stick's height and phone holder's angle for optimal shooting.
4. Use the remote control to capture photos or videos from a distance.

Figure 6.3: Close-up of the tripod legs.

7. MAINTENANCE

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, fold the selfie stick to its compact size and store it in a cool, dry place away from direct sunlight.
- **Battery:** The remote control uses a small button cell battery. Replace it when the remote's performance

degrades.

8. TROUBLESHOOTING

8.1 Remote Control Not Pairing

- Ensure the remote control is charged or has a fresh battery.
- Make sure Bluetooth is enabled on your smartphone.
- Restart both your smartphone and the remote control (by removing and reinserting the battery if possible, or turning it off and on).
- Clear previous Bluetooth connections on your phone and try pairing again.

8.2 Selfie Stick Instability

- Ensure all telescopic segments are fully extended and locked into place (if applicable).
- When using as a tripod, ensure the legs are fully deployed and placed on a flat, stable surface.
- Verify that your smartphone is securely clamped and balanced.
