## myTouchSmart 26898-P1

# myTouchSmart Outlet Timer

Model: 26898-P1

## INTRODUCTION

The myTouchSmart Plug-In Indoor/Outdoor Digital Timer is designed to simplify the automation of your lighting and appliances. This weather-resistant timer features two grounded outlets, offering versatile control for landscape, patio, and seasonal lighting. It provides both customizable "My On/Off Time" settings and convenient daily preset options, along with a 24-hour countdown feature. The large LCD screen and blue LED indicators ensure easy programming and monitoring of active programs. Compatible with various light sources including CFL, LED, incandescent, and halogen, this UL listed product is built for convenience and energy efficiency.

## PRODUCT FEATURES

- Easy-to-set digital timer with two grounded outlets for landscape, patio, and seasonal lights and appliances.
- Features simple daily preset options, fully customizable "My On/Off Time" settings, and a custom, up to 24-hour countdown feature.
- Weather resistant for both outdoor and indoor use. Includes an attached bracket for easy mounting and installation.
- Compatible with CFL, LED, incandescent, and halogen light sources.
- Large LCD screen and blue LED indicators to show active programs.
- Electrical Rating: 125V/60Hz, 15A/1875W General purpose/resistive.
- CSA listed for safety.

## SETUP INSTRUCTIONS

---

1. **Initial Power-Up:** Plug the timer into a standard 125V AC outlet. The LCD screen will illuminate. If the screen is blank or not reading, plug it in for at least one hour to charge the internal battery.
2. **Set Current Time:**
  - Press the **CLOCK** button.
  - Use the **UP (▲)** and **DOWN (▼)** arrows to adjust the hour.
  - Press **CLOCK** again to move to minutes, then use the arrows to adjust.
  - Press **CLOCK** a third time to confirm and exit time setting.
3. **Mounting:** Use the integrated mounting bracket to securely attach the timer near your desired outlet. Ensure the timer is positioned to prevent water accumulation.

## OPERATING INSTRUCTIONS

### Setting Custom ON/OFF Times ("My On/Off Time")

#### 1. Set ON Time:

- Press the **MY ON TIME** button. The display will show the current ON time setting.
- Use the **UP (▲)** and **DOWN (▼)** arrows to adjust the desired ON hour.
- Press **MY ON TIME** again to move to minutes, then use the arrows to adjust.
- Press **MY ON TIME** a third time to confirm and save the ON time. The blue LED indicator next to "my on time" will illuminate when active.

#### 2. Set OFF Time:

- Press the **MY OFF TIME** button. The display will show the current OFF time setting.

- Use the **UP (▲)** and **DOWN (▼)** arrows to adjust the desired OFF hour.
- Press **MY OFF TIME** again to move to minutes, then use the arrows to adjust.
- Press **MY OFF TIME** a third time to confirm and save the OFF time. The blue LED indicator next to "my off time" will illuminate when active.

## Using Preset Schedules

The timer offers three convenient preset schedules:

- **Evening (5pm-12am):** Press the **EVENING** button.
- **Morning (5am-8am):** Press the **MORNING** button.
- **All Night (6pm-6am):** Press the **ALL NIGHT** button.

To activate a preset, simply press the corresponding button. The blue LED indicator next to the selected preset will light up.

## 24-Hour Countdown

To use the countdown feature:

1. Press the **MY COUNTDOWN** button.
2. Use the **UP (▲)** and **DOWN (▼)** arrows to set the desired countdown duration (up to 24 hours).
3. Press **MY COUNTDOWN** again to start the countdown. The timer will turn ON for the set duration and then turn OFF.

## MAINTENANCE

- **Cleaning:** Disconnect the timer from the power outlet before cleaning. Wipe the exterior with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use for extended periods, store the timer in a cool, dry place away from direct sunlight and extreme temperatures.
- **Internal Battery:** The timer contains an internal battery to maintain settings during power outages. If the display is dim or blank, plug the timer into an outlet for at least one hour to recharge the battery.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Timer display is blank or dim.	Internal battery is low or depleted.	Plug the timer into a live outlet for at least one hour to charge the internal battery.
Connected device does not turn ON/OFF.	Timer is not programmed correctly. Device is not properly plugged into the timer. Device is faulty or turned OFF. Power outage.	Review "Operating Instructions" to ensure correct programming. Ensure the device's plug is fully inserted into the timer's outlet. Check the device by plugging it directly into a wall outlet. Ensure the device's power switch is ON. Verify power to the outlet. The timer's internal battery will maintain settings during outages, but the device will not receive power.
Timer is not responding to button presses.	Temporary software glitch or low battery.	Unplug the timer from the outlet for a few minutes, then plug it back in. Allow the internal battery to charge if the display was dim.

## SPECIFICATIONS

Feature	Detail
Model Number	26898-P1
