INTRODUCTION

This manual provides instructions for the HAVIT HV-KB366L RGB Backlit Mechanical Gaming Keyboard. This keyboard features blue mechanical switches, full anti-ghosting, and customizable RGB backlighting, designed for reliable performance.

SETUP INSTRUCTIONS

Connecting the Keyboard

1. Locate an available USB port on your computer.
2. Connect the USB cable from the HAVIT HV-KB366L keyboard to the USB port on your computer.
3. The keyboard is plug-and-play and should be recognized automatically by your operating system.

System Compatibility

- Compatible with Windows 10 and other Windows operating systems.
- Mac OS supports 6-key rollover only.

OPERATING INSTRUCTIONS

Mechanical Key Switches

The keyboard is equipped with blue mechanical switches, providing tactile feedback and an audible click with each keystroke. This design is intended for precise input during typing and gaming.

Anti-Ghosting Feature

The full key anti-ghosting mechanism ensures that all key presses are registered accurately, even when multiple keys are pressed simultaneously. This feature is beneficial for fast-paced gaming.

Backlight Adjustment

- To change the backlight color or mode, press the **Fn** key simultaneously with the **Backlit** key. Repeated presses will cycle through available modes and colors.
- **Marquee Mode:** In 7-color backlit mode (non-breathing), press the **Backlit** key once to activate marquee mode. Press the **Backlit** key again to deactivate marquee mode and return to 7-color backlit mode.
- **Brightness Levels:** The backlight offers 4 levels of brightness adjustment.
- **Breathing Rate:** The breathing effect has 10 adjustable levels.

MAINTENANCE

Cleaning the Keyboard

- Disconnect the keyboard from your computer before cleaning.
- Use a soft, dry cloth to wipe the surface of the keyboard.
- For dust and debris between keys, use compressed air.
- Avoid using harsh chemicals or abrasive materials, as these can damage the finish or keycaps.

Durability

The keyboard features an aluminum top housing with a sanded finish and a metal base, contributing to its overall durability and stable performance.

TROUBLESHOOTING

Keyboard Not Responding

- Ensure the USB cable is securely connected to both the keyboard and the computer.
- Try connecting the keyboard to a different USB port on your computer.
- Test the keyboard on another computer to determine if the issue is with the keyboard or the computer's USB port.

Backlight Not Working or Incorrect

- Verify that the keyboard is properly connected and receiving power.
- Press **Fn + Backlit** key to cycle through backlight modes and ensure it is not turned off or set to a very low brightness.
- Refer to the "Backlight Adjustment" section for detailed instructions on changing modes and brightness.

SPECIFICATIONS

Brand	HAVIT
