Moen 26112

Moen Engage Chrome Magnetix Six-Function Handheld Shower Head User Manual

Model: 26112 | Brand: Moen

PRODUCT OVERVIEW

The Moen Engage Chrome Magnetix Six-Function Handheld Showerhead offers an effortless and luxurious showering experience with its innovative design and superior functionality. Featuring Magnetix technology, this showerhead easily docks into place with a powerful magnetic connection, ensuring secure and hassle-free use. The six unique spray settings allow you to customize your shower to match your mood, whether you prefer a relaxing massage, a wide-coverage rinse, or an invigorating downpour. Designed with convenience in mind, the ergonomic spray face and lightweight construction make it comfortable to hold and easy to maneuver. The long, kink-free metal hose provides added flexibility, making it perfect for rinsing, cleaning, or bathing children and pets. Crafted with durable materials and a high-quality chrome finish, this showerhead resists corrosion and maintains its sleek appearance over time. The simple, tool-free installation allows it to fit most standard shower arms, making it an easy upgrade for any bathroom. With a focus on both style and performance, this Magnetix handheld showerhead transforms your daily routine into a spa-like experience while offering Moen's trusted durability and reliability for years to come.

SETUP AND INSTALLATION

The Moen Engage handheld shower head is designed for easy, tool-free installation directly onto your existing shower arm. For detailed visual instructions, please refer to the official installation manual.

Key Installation Steps:

1. Ensure your existing shower arm is clean and free of debris.
2. Attach the new shower head assembly to the shower arm. Hand-tighten only.
3. Connect the 60-inch kink-free metal hose to the handheld showerhead and the shower arm connection.
4. Test for leaks. If leaks occur, ensure all connections are hand-tight and washers are properly seated.

For a comprehensive guide, you can access the official Installation Manual (PDF) [here](#).

OPERATING INSTRUCTIONS

The Moen Engage shower head features six distinct spray settings, allowing you to customize your showering experience. The innovative Magnetix docking system provides secure and easy access to the handheld unit.

Spray Settings:

- **Rinse:** A steady, consistent stream for general rinsing.
- **Downpour:** A powerful, invigorating full-body spray.
- **Wide Coverage:** A broad spray pattern for maximum coverage.
- **Massage:** A focused, pulsating spray for muscle relaxation.
- **Relaxing Massage:** A softer, gentler pulsating massage.
- **Soothing Massage:** A gentle, calming massage spray.

To change spray settings, simply turn the dial on the showerhead. The magnetic docking system allows for effortless detachment and reattachment of the handheld unit, ensuring it remains securely in place when not in use.

MOEN

MAGNETIX™ DOCKING TECHONLOGY

Magnetix handheld showers include magnetic docking, which allows for easy release and securely snaps back into place.

EXTENDED REACH

The included 60 inch hose extends for reach and flexibility.

MAINTENANCE

To ensure optimal performance and longevity of your Moen Engage shower head, regular cleaning is recommended. The rub-clean nozzles are designed for easy maintenance.

- **Cleaning Nozzles:** Simply rub the rubber nozzles on the spray face to dislodge mineral buildup and maintain consistent spray performance.
- **Cleaning Finish:** Use a soft, damp cloth and mild soap to clean the chrome finish. Avoid abrasive cleaners, solvents, or polishing agents as they may damage the finish.
- **Hose Care:** Periodically check the 60-inch metal hose for any kinks or damage. Ensure it is not excessively twisted during use or storage.

MOEN

Chrome Finish

More like a mirrored surface than a color.
Super-polished and cool-toned to the point of
glistening for an enduring look.

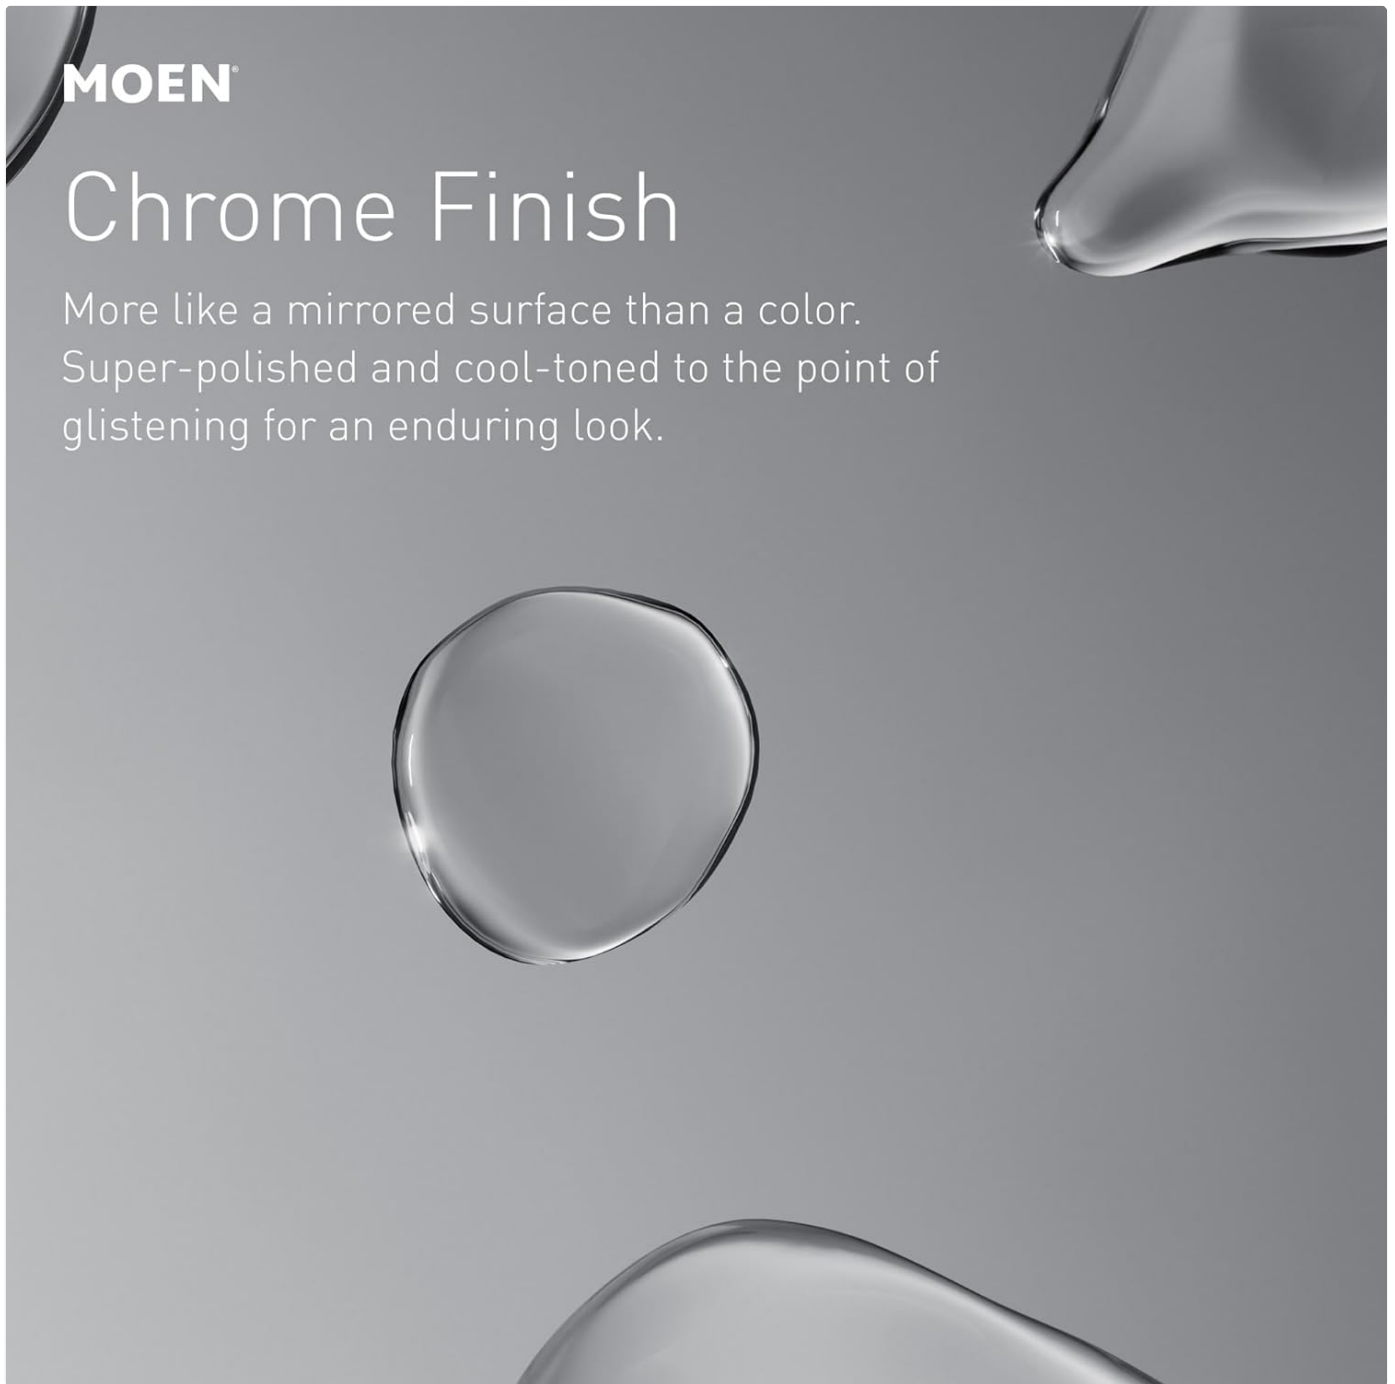

Figure 5: The durable chrome finish is easy to clean and maintain its mirror-like appearance.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Low Water Pressure	Mineral buildup in nozzles; Flow restrictor installed.	Rub nozzles to clear buildup. Consider removing flow restrictor (refer to installation manual for guidance, if applicable).
Leaking at Connections	Loose connections; Improperly seated washers.	Ensure all connections are hand-tight. Check that washers are correctly placed and not damaged.

Problem	Possible Cause	Solution
Difficulty Changing Spray Settings	Mineral buildup in the dial mechanism.	Clean the showerhead thoroughly, especially around the dial. Run hot water through the showerhead to help dislodge mineral deposits.

SPECIFICATIONS
