4. OPERATING INSTRUCTIONS

This toilet seat is equipped with a soft-close mechanism, designed for quiet and gentle operation. To operate:

- **Lowering the Lid/Seat:** Gently push the lid or seat downwards. The soft-close hinges will engage, allowing the lid/seat to descend slowly and silently without slamming.
- **Raising the Lid/Seat:** Lift the lid or seat upwards to the desired position. It will remain open until gently pushed down.

5. MAINTENANCE AND CARE

To ensure the longevity and appearance of your Duravit toilet seat, follow these maintenance guidelines:

- **Cleaning:** Use a soft cloth and mild, non-abrasive cleaning agents. Avoid harsh chemicals, abrasive scrubbers, or strong detergents, as these can damage the finish.
- **Hinge Care:** Periodically check the hinge connections for tightness. If the seat feels loose, gently tighten the mounting bolts. Do not over-tighten.
- **Avoid Impact:** Prevent heavy objects from falling onto the seat or lid, which could cause cracks or damage to the soft-close mechanism.

6. TROUBLESHOOTING

If you encounter issues with your toilet seat, consider the following common solutions:

- **Loose Seat:** If the seat wobbles, check and tighten the mounting bolts beneath the toilet bowl.
- **Slamming Lid/Seat:** If the soft-close mechanism is not functioning, ensure the hinges are clean and free from debris. If the issue persists, the mechanism may require professional inspection or replacement.
- **Difficulty Cleaning:** For thorough cleaning, some toilet seats allow for quick release from the mounting posts. Refer to your product's specific instructions for this feature, if applicable.
