MAINTENANCE

Proper care will extend the life and appearance of your Neopack Leather Sleeve:

- **Cleaning the Exterior (Faux Leather):** Wipe the surface with a soft, damp cloth. For stubborn dirt, use a mild soap solution, then wipe clean with a fresh damp cloth and dry immediately with a soft, dry cloth. Avoid harsh chemicals or abrasive cleaners.
- **Cleaning the Interior (Nylon):** The nylon lining can be spot cleaned with a damp cloth and mild soap. Allow to air dry completely before reinserting your device.
- **Zipper Care:** Periodically check zippers for smooth operation. If a zipper becomes stiff, apply a small amount of zipper lubricant or wax. Avoid forcing stuck zippers.
- **Storage:** Store the sleeve in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Avoid Overloading:** Do not overload the sleeve or its pockets, as this can strain zippers and seams.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Zipper Sticking or Breaking:**
 - Ensure the zipper path is clear of fabric or debris.
 - Apply a small amount of zipper lubricant (e.g., beeswax, graphite pencil lead) to the zipper teeth.
 - If the zipper is damaged or broken, contact customer support for assistance.
- **Device Not Fitting:**
 - Verify your device's dimensions against the sleeve's maximum compatible size (13.3 inches).
 - Ensure no bulky accessories are attached to your device when attempting to insert it.
- **Strap Discomfort:**
 - Adjust the shoulder strap length to distribute weight evenly and find a comfortable carrying position.
