1. INTRODUCTION

This manual provides comprehensive instructions for the Panasonic KX-TGF372S DECT 2-Handset Landline Telephone. Designed for home and home office use, this system offers advanced communication features including Link2Cell Bluetooth connectivity, robust call blocking capabilities, and an integrated answering machine. Please read this manual thoroughly to ensure proper setup and operation of your telephone system.

2. SETUP

2.1 Unpacking and Initial Charge

Carefully remove all components from the packaging. Place the handsets on their respective charging bases. Allow the handsets to charge for at least 7 hours before initial use to ensure optimal battery performance.

2.2 Connecting the Base Unit

1. Connect the AC adapter to the base unit and plug it into a standard electrical outlet.
2. Connect the telephone line cord to the base unit and then to your telephone wall jack.
3. Ensure all connections are secure.

2.3 Setting Date and Time

Follow the on-screen prompts on the handset to set the current date and time. This is crucial for accurate call logging and answering machine timestamps.

2.4 Link2Cell Bluetooth Pairing

To pair your smartphone(s) with the Link2Cell system, activate Bluetooth on your smartphone and follow the pairing instructions provided in the handset menu. Up to two smartphones can be paired simultaneously.

3. OPERATING INSTRUCTIONS

3.1 Making and Receiving Calls

- **To make a call:** Press the **TALK** button, then dial the number.
- **To receive a call:** Press the **TALK** button when the phone rings.
- **Using Link2Cell:** Once paired, you can make and receive cell calls directly from your Panasonic handsets.

3.2 Answering Machine

- **Turning On/Off:** Use the **ANSWER ON/OFF** button on the base unit.
- **Playing Messages:** Press **PLAY/STOP** on the base unit or access through the handset menu.
- **Recording Greeting:** Customize your answering machine greeting via the handset menu.

3.3 Call Blocking

Utilize the dedicated **CALL BLOCK** button on the base unit or handsets to block unwanted numbers. The system can block up to 250 numbers.

3.4 Intercom Function

Use the intercom feature to communicate between handsets or between a handset and the base unit. Refer to the handset menu for intercom initiation.

4. KEY FEATURES

- **Link2Cell Bluetooth System:** Easily pair up to two smartphones to make and receive cell calls from handsets.
- **Talking Caller ID:** Hear caller ID alerts from Link2Cell handsets when texts are received.
- **Call Block:** Block up to 250 unwanted numbers with a one-touch button on the base unit and handsets.
- **Phonebook:** Store up to 3,000 numbers for quick access.
- **Baby Monitor:** Utilize a handset as a baby monitor to listen in on another room.
- **Battery Power Backup:** Ensures continued operation during power outages.
- **Noise Reduction:** Enhances call clarity by reducing background noise.

5. MAINTENANCE

- **Cleaning:** Wipe the telephone and base unit with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Battery Care:** Replace rechargeable batteries when their performance diminishes. Use only recommended battery types.
- **Storage:** If storing the unit for an extended period, remove the batteries from the handsets.

6. TROUBLESHOOTING

Problem	Solution
No dial tone	Check all cable connections. Ensure the telephone line cord is securely plugged into the wall jack and base unit.

Problem	Solution
Handset not charging	Ensure the handset is correctly seated in the charging cradle. Verify the AC adapter is plugged in. Clean charging contacts if necessary.
Cannot make/receive calls via Link2Cell	Confirm Bluetooth is enabled on your smartphone and it is paired with the base unit. Ensure the smartphone is within range.
Poor call quality/noise	Move closer to the base unit. Check for interference from other electronic devices.
