OPERATING INSTRUCTIONS

This puzzle offers multiple ways to engage children in learning:

1. Shape Sorting:

- Encourage the child to match each numbered shape to its corresponding slot on the clock face. Each number is on a unique shape (e.g., triangle, circle, square, star, heart).
- Guide them by identifying the shape of the slot and finding the matching wooden piece.

2. Number Recognition:

- As the child places each shape, say the number aloud.
- Ask the child to identify specific numbers or count from 1 to 12.

3. Color Learning:

- Each shape is brightly colored. Name the colors as the child interacts with them.
- Ask the child to find shapes of a particular color.

4. Basic Time Telling:

- Once all shapes are in place, use the movable hour and minute hands to demonstrate different times.
- Point out the minute markings (00, 05, 10, etc.) around the clock face to introduce counting by fives.
- Explain the difference between the short (hour) hand and the long (minute) hand.
