Jaclo 3049-DS-ULB

Jaclo 3049-DS-ULB 49-inch Double Spiral Brass Hose User Manual

Model: 3049-DS-ULB | Brand: Jaclo

Introduction

This manual provides essential information for the proper installation, operation, and maintenance of your Jaclo 3049-DS-ULB 49-inch Double Spiral Brass Hose. Please read these instructions carefully before use to ensure safe and efficient performance of the product.

This image displays the Jaclo 49-inch Double Spiral Brass Hose. The hose features a flexible, double-spiral design with a metallic, unlacquered brass finish. It has hexagonal connectors at both ends for attachment to plumbing fixtures.

Safety Information

- Always turn off the main water supply before attempting any installation or maintenance.
- Ensure all connections are secure to prevent leaks. Do not overtighten.
- Use appropriate tools and wear protective gear if necessary.
- If you are unsure about any installation steps, consult a qualified plumber.

Package Contents

- 1 x Jaclo 3049-DS-ULB 49-inch Double Spiral Brass Hose

Setup and Installation

Tools Required

- Adjustable wrench or pliers
- Plumber's tape (PTFE tape)

- Soft cloth (for cleaning and protection)

Installation Steps

1. **Prepare the Connection Points:** Ensure the water supply is turned off. Clean the threads of the existing fixture (e.g., shower arm, hand shower base) where the hose will connect.
2. **Apply Plumber's Tape:** Wrap plumber's tape clockwise around the threads of the fixture where the hose will attach. Apply 2-3 layers for a good seal.
3. **Connect the Hose:** Carefully thread one end of the Jaclo hose onto the prepared fixture. Hand-tighten first, then use an adjustable wrench to tighten an additional 1/4 to 1/2 turn. Do not overtighten, as this can damage the threads or washers.
4. **Connect the Other End:** Repeat the process for the other end of the hose, connecting it to your hand shower or other compatible fixture.
5. **Check for Leaks:** Slowly turn on the main water supply. Inspect all connections for any signs of leakage. If leaks occur, turn off the water, tighten the connection slightly, or reapply plumber's tape.

Operating Instructions

The Jaclo 49-inch Double Spiral Brass Hose is designed to provide flexible water delivery to a hand shower or similar fixture. Once installed, simply use your connected hand shower as intended. The hose's double spiral design offers enhanced flexibility and durability for daily use.

Maintenance

Cleaning

To maintain the unlacquered brass finish, clean regularly with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish. Unlacquered brass will naturally develop a patina over time, which is a characteristic of the material. If you wish to restore some of its original luster, use a brass cleaner specifically designed for unlacquered finishes, following the product's instructions carefully.

Inspection

Periodically inspect the hose for any signs of wear, kinks, or damage. Check the connections for tightness and ensure there are no leaks. Replace the hose if any significant damage is observed to prevent water damage.

Troubleshooting

Problem	Possible Cause	Solution
Water leaks at connections	Loose connection, insufficient plumber's tape, damaged washer	Turn off water supply. Tighten connections. Reapply plumber's tape. Check and replace washers if damaged.
Low water pressure	Kink in hose, debris in fixture, restricted water flow	Straighten hose. Clean connected hand shower or fixture. Ensure water supply valve is fully open.
Hose appears discolored or tarnished	Natural patina of unlacquered brass	This is a natural characteristic. Clean with a brass cleaner designed for unlacquered finishes if desired.

Specifications

- **Brand:** Jaclo
- **Model Number:** 3049-DS-ULB
- **Length:** 49 inches
- **Material:** Brass
- **Finish:** Unlacquered Brass (ULB)
- **UPC:** 020111588396
