HOT TOOLS HT7014D

HOT TOOLS Professional 2100 Lightweight Turbo Ionic Hair Dryer

Model: HT7014D

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- Always unplug the hair dryer immediately after use.
- Do not use while bathing or in a shower.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- If an appliance falls into water, unplug it immediately. Do not reach into the water.
- Keep away from water.
- Do not use the hair dryer if the cord is damaged.
- Allow the hair dryer to cool down after use.
- Keep the hair dryer out of reach of children and pets.
- In case of overheating, unplug the hair dryer immediately and do not use it until it has cooled down.
- Always follow the manufacturer's instructions for proper use and care of the hair dryer.

DANGER: As with most electrical appliances, electrical parts are electrically live even when the switch is off. To reduce the risk of death by electric shock:

- Always unplug this appliance immediately after using.
- Do not use while bathing.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- If an appliance falls into water, unplug it immediately. Do not reach into the water.

PRODUCT OVERVIEW

The HOT TOOLS Professional 2100 Lightweight Turbo Ionic Hair Dryer is designed for efficient and versatile hair drying. It features a powerful 1875-watt motor, multiple heat and speed settings, and ionic technology to help reduce frizz and enhance shine. Its compact and lightweight European design makes it comfortable to handle, and it includes a non-slip rubber side bumper for countertop stability.

SETUP AND FIRST USE

1. **Unpacking:** Carefully remove the hair dryer and all accessories from the packaging. Ensure all components are present.
2. **Inspect:** Before first use, inspect the appliance and its cord for any signs of damage. Do not use if damaged.
3. **Power Connection:** Plug the hair dryer into a standard 110V electrical outlet. Ensure your hands are dry before plugging in or unplugging the device.
4. **Attachment (Optional):** If desired, attach the concentrator nozzle to the front of the dryer. Align the concentrator with the dryer's barrel and push it firmly into place.
5. **Initial Test:** Turn on the dryer to a low setting to ensure it functions correctly.

OPERATING INSTRUCTIONS

This hair dryer offers various settings to suit different hair types and styling needs.

Heat and Speed Settings

The dryer features 6 heat/speed settings, controlled by two separate switches located on the handle.

Image: Close-up of the hair dryer's handle showing the two switches for heat and speed settings, labeled Low, Med, High, and Off.

- **Speed Control:** Use the top switch to adjust the airflow speed (Low, Medium, High).
- **Heat Control:** Use the bottom switch to adjust the heat level (Low, Medium, High).
- Combine these settings to achieve your desired drying intensity. For delicate or fine hair, use lower heat and speed. For thick or coarse hair, higher settings may be more effective.

Cool Shot Function

The Cool Shot button provides a burst of cool air to help set your hairstyle and add shine.

Image: Close-up of the hair dryer showing the "COOL SHOT" button with a snowflake icon.

- After drying a section of hair, press and hold the Cool Shot button for a few seconds.
- Release the button to return to the previous heat setting.

Using the Concentrator Attachment

The included concentrator attachment directs airflow for precise styling and smoothing.

INCLUDED

CONCENTRATOR ATTACHMENT

Image: The concentrator attachment, a black nozzle designed to focus airflow.

- Attach the concentrator to the front of the dryer.
- Use a round brush to guide sections of hair while directing the concentrated airflow downwards. This helps to smooth the cuticle and add shine.

MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your hair dryer.

1. **Cleaning the Air Filter:** Regularly check and clean the rear air filter to prevent lint and dust buildup, which can restrict airflow and cause overheating.
 - Ensure the dryer is unplugged and completely cool.
 - Twist or pull off the rear filter cover (refer to diagram in physical manual if available).
 - Remove any accumulated lint or hair using a soft brush or vacuum cleaner.
 - Replace the filter cover securely.
2. **Exterior Cleaning:** Wipe the exterior of the dryer with a soft, damp cloth. Do not use abrasive cleaners or solvents.

3. **Storage:** When not in use, unplug the dryer and allow it to cool. Store it in a dry, safe place, out of reach of children. Do not wrap the power cord tightly around the dryer, as this can damage the cord. Use the hanging loop for convenient storage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Dryer does not turn on.	Not plugged in; power outlet issue; internal fault.	Ensure the dryer is securely plugged into a working outlet. Test the outlet with another appliance. If still not working, contact customer support.
Dryer overheats and shuts off.	Blocked air intake/filter; prolonged use.	Unplug the dryer and allow it to cool down. Clean the rear air filter as described in the Maintenance section. Ensure proper ventilation during use.
Weak airflow.	Blocked air filter.	Clean the rear air filter.
Hair is still frizzy.	Improper technique; product not fully utilizing ionic technology.	Ensure you are drying hair downwards with the concentrator. Use appropriate hair products. The dryer's ionic technology helps reduce frizz, but results can vary based on hair type and technique.

SPECIFICATIONS

Feature	Detail
Model Number	HT7014D
Brand	HOT TOOLS
Wattage	1875 watts
Power Source	Corded Electric
Heat/Speed Settings	6 (independent heat and speed controls)
Special Features	Turbo Ionic Technology, Cool Shot Button, Non-slip rubber side bumper
Included Attachments	Concentrator
Cord Length	8 ft. professional cord
Product Dimensions	10.75 x 4.25 x 9.75 inches
Weight	1 Pound
Material	Rubber (for bumper)
Color	Black

Image: Diagram showing the approximate size of the hair dryer in relation to a person, indicating a length of 11 inches (28 cm).
