ASSEMBLY INSTRUCTIONS

- Build the Frame:** Begin by assembling the border of the puzzle using the sorted edge pieces. This provides a clear boundary and helps define the puzzle's overall dimensions.
- Assemble Distinct Sections:** Work on areas with unique colors or patterns first. These sections are often easier to identify and connect.
- Connect Sections:** Once smaller sections are completed, gradually connect them to the main frame and to each other.
- General Tips:**
 - This puzzle is designed to enhance concentration, manual skills, and patience.
 - Take breaks if you feel frustrated. A fresh perspective can often help identify missing connections.
 - Refer frequently to the box image for guidance on colors, shapes, and overall composition.

MAINTENANCE AND PRESERVATION

- **Cleaning:** Keep the puzzle pieces free from dust and debris. A soft, dry cloth can be used to gently wipe the surface of completed sections.
- **Storage:** If you wish to disassemble and store the puzzle, keep the pieces in a secure container or the original box to prevent loss. For long-term storage of an assembled puzzle, consider using a puzzle roll-up mat or a dedicated puzzle board.
- **Preserving Your Puzzle:** After completing the puzzle, you can permanently preserve it. Apply puzzle glue (sold separately) to the front surface of the assembled puzzle. Once dry, you can glue the picture to a piece of cardboard and then hang it on a wall as a decorative piece.

TROUBLESHOOTING

- **Missing Pieces:** While rare, if you believe a piece is missing, thoroughly check your workspace, under furniture, and within the packaging. If a piece is genuinely missing, please contact Trefl customer support for assistance.
- **Difficulty in Assembly / Pieces Fitting in Multiple Spots:** Some puzzle designs, especially those with large areas of similar color (like sky or water), can be challenging. If pieces seem to fit in multiple locations, carefully examine the image on the box, the exact shape of the interlocking tabs, and the subtle color variations. Patience and a systematic approach (e.g., sorting by shape or small details) are key.
