Brookstone 990634

Brookstone Wired Purple Cat Ear Headphones User Manual

Model: 990634

INTRODUCTION

Thank you for purchasing the Brookstone Wired Purple Cat Ear Headphones. These headphones are designed to provide a unique audio experience with their distinctive cat ear design, external speakers, and LED accent lights. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal performance and longevity of your product.

PRODUCT OVERVIEW

The Brookstone Wired Purple Cat Ear Headphones combine immersive personal listening with the fun of external speakers and customizable LED lights. Key features include:

- **External Cat Ear Speakers:** Share your music with others.
- **Inline Volume Control:** Easily adjust audio levels and navigate tracks.
- **Over-the-Ear Cushioning:** Provides comfort and noise reduction.
- **USB Rechargeable:** Offers up to 5 hours of use for LED lights and external speakers.
- **Independently Controlled LED Accent Lights:** Customize your style.

PACKAGE CONTENTS

Upon unpacking, please ensure all items are present:

- Brookstone Wired Purple Cat Ear Headphones
- Removable 3.5 mm Audio Cable with Microphone
- USB Charging Cable

SETUP

1. Charging the Headphones

Before initial use, fully charge the headphones. The LED lights and external speakers require power from the internal rechargeable battery.

1. Connect the small end of the provided USB charging cable to the USB port on the headphones.
2. Connect the large end of the USB charging cable to a powered USB port (e.g., computer, USB wall adapter).
3. The charging indicator light will illuminate during charging. Charging typically takes approximately 5 hours.
4. Once fully charged, the indicator light will change or turn off (refer to specific product indicator behavior).

2. Connecting to an Audio Source

The headphones connect via a standard 3.5mm audio jack.

1. Insert the 3.5mm audio cable into the audio input jack on the headphones.
2. Insert the other end of the 3.5mm audio cable into the audio output jack of your device (smartphone, tablet, laptop, gaming console, etc.).

OPERATING INSTRUCTIONS

1. Powering On/Off LED Lights and External Speakers

The LED accent lights and external cat ear speakers are powered by the internal rechargeable battery and can be controlled independently.

- Locate the power button for the LED lights/external speakers, typically on one of the earcups or the cat ears.
- Press the button to turn the lights and speakers on or off.

2. Adjusting Volume and Track Navigation

Use the inline controls on the audio cable for convenient management of your audio.

- **Volume Up/Down:** Press the '+' or '-' buttons to adjust the listening volume.
- **Next/Previous Track:** Use the forward/back buttons to skip tracks.

3. Using the Microphone

The removable 3.5mm audio cable includes an integrated microphone for communication.

- Ensure the microphone is properly connected to the audio cable and positioned near your mouth for clear voice pickup.
- The microphone is active when the headphones are connected to a compatible device.

Your browser does not support the video tag.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the headphones. Do not use abrasive cleaners or solvents.
- **Storage:** Store the headphones in a cool, dry place when not in use. Avoid extreme temperatures.
- **Cable Care:** Handle the audio and charging cables gently to prevent damage. Avoid sharp bends or excessive pulling.

TROUBLESHOOTING

- **No Sound:** Ensure the 3.5mm audio cable is securely connected to both the headphones and the audio source. Check the volume levels on both the headphones (inline control) and your device.
- **LED Lights/External Speakers Not Working:** Confirm the headphones are fully charged. The LED lights and external speakers require battery power.
- **Microphone Not Working:** Verify the microphone is properly plugged into the audio cable and the cable is fully inserted into your device. Check your device's audio input settings.
- **Distorted Sound:** Reduce the volume on your device or headphones. Ensure the audio cable is not damaged.

SPECIFICATIONS

Feature	Detail
Model Number	990634
Connectivity Technology	Wired (3.5mm Jack), Infrared
Noise Control	Sound Isolation
Frequency Response	20000 Hz
Impedance	32 Ohms
Battery Life (LED/Speakers)	Up to 5 Hours
Charging Time	5 Hours
