August Home AK-R1

August Home Smart Keypad (Model AK-R1) Instruction Manual

Enhance your August Smart Lock with convenient keyless entry.

PRODUCT OVERVIEW

The August Home Smart Keypad provides a secure and convenient way to grant access to your home without traditional keys or a smartphone. Designed to pair with your August Smart Lock, it allows you to create unique entry codes for family, friends, or service providers. The keypad operates via secure Bluetooth technology and is powered by AAA batteries, requiring no hardwiring for installation. It can be mounted on various surfaces near your door.

KEY FEATURES

- **Custom Entry Codes:** Create unique codes for guests, family, or service personnel.
- **Easy Installation:** Connects to your August Smart Lock via Bluetooth in minutes, requiring no wiring.
- **Flexible Mounting:** Can be securely attached to wood, stucco, or brick surfaces within 10 feet of your lock.
- **One-Touch Locking:** Lock your door with a single press of the August logo on the keypad.
- **Activity Log:** Monitor who enters and exits your home through the free August app.

WHAT'S INCLUDED

The August Home Smart Keypad package includes the following items:

- August Smart Keypad
- 2 AAA Batteries
- 2 Screws
- 2 Wall Anchors
- Double-Sided Tape
- Getting Started Guide

SETUP

1. Physical Installation

The Smart Keypad can be mounted near your door using either the included screws and wall anchors or the double-sided tape. Ensure the mounting location is within 10 feet (approximately 3 meters) of your August Smart Lock for optimal Bluetooth connectivity.

2. Battery Installation

The keypad requires 2 AAA batteries, which are included. To install or replace batteries, slide off the battery cover on the back of the unit and insert the batteries according to the polarity markings. Replace the cover securely.

3. App Setup and Pairing

Download the free August app for iOS or Android. Follow the in-app instructions to add your Smart Keypad and pair it with your existing August Smart Lock. This process typically involves activating the keypad and confirming its connection within the app.

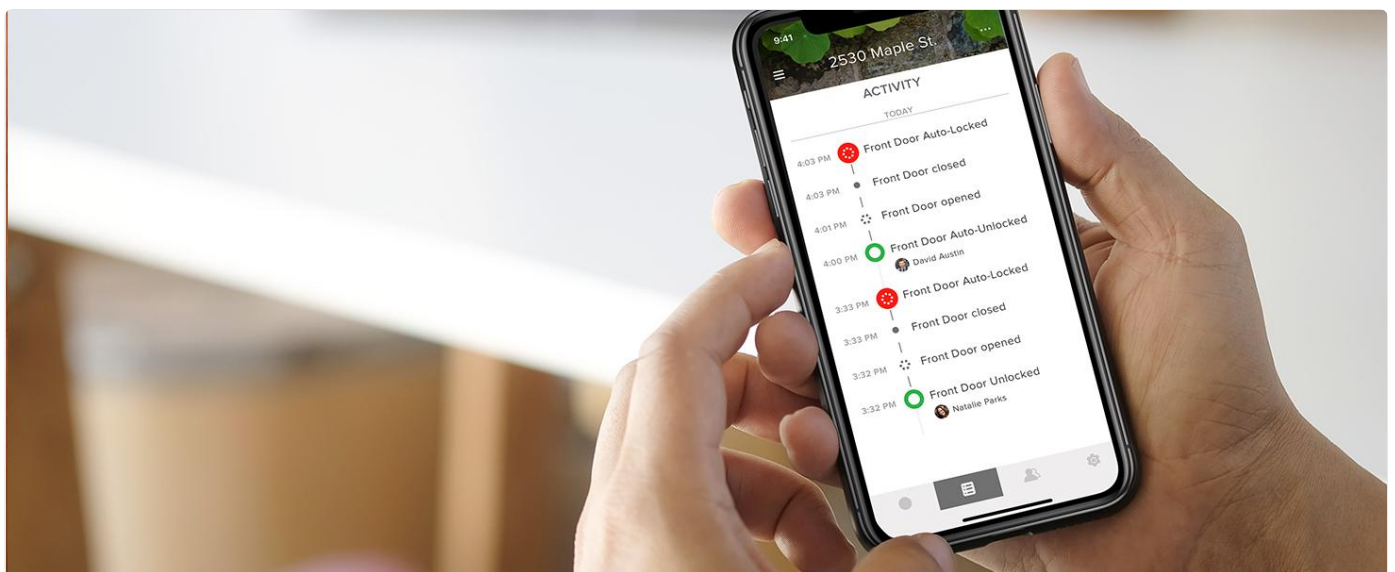

Image: A hand holding a smartphone displaying the August app activity log, which tracks door lock and unlock events.

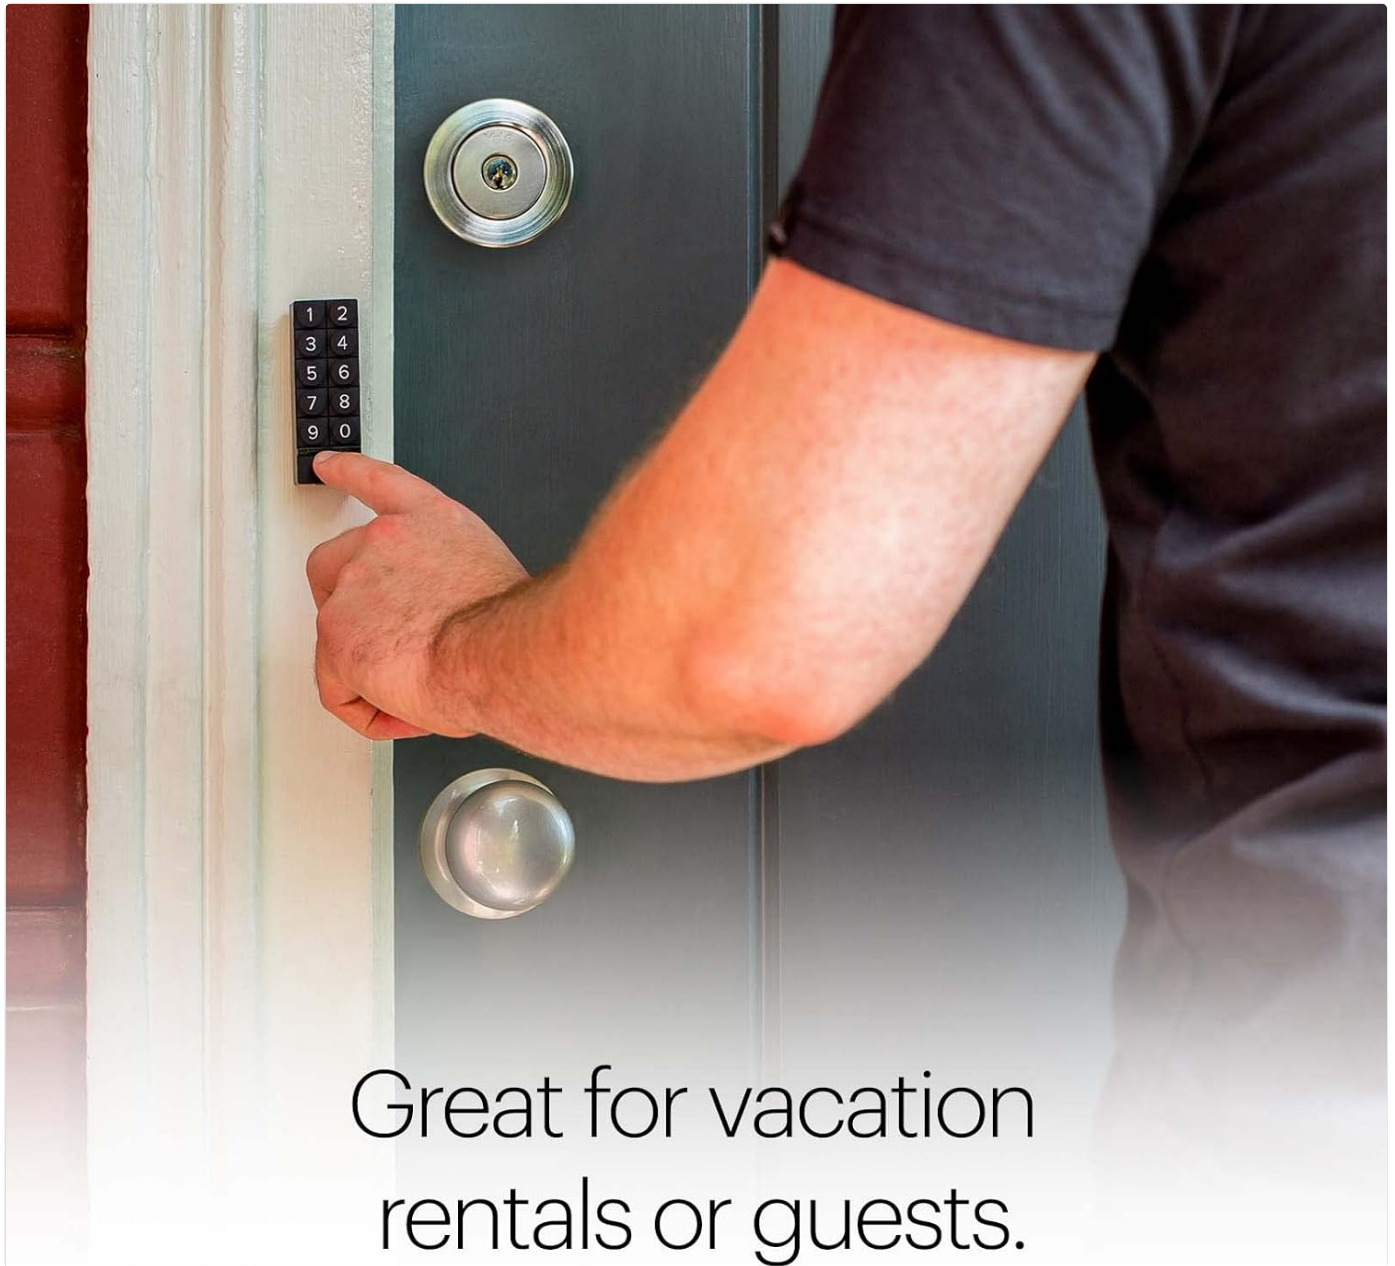

4. Creating Entry Codes

Within the August app, navigate to the keypad settings to create unique entry codes. You can assign different codes to various users and set schedules for when these codes are active. Codes must be at least 6 digits long for security.

OPERATING INSTRUCTIONS

1. Locking the Door

To lock your door, simply press the August logo button on the keypad. The keypad will illuminate to confirm the lock action. Ensure the door is fully closed before initiating the lock command.

Great for vacation rentals or guests.

2. Unlocking the Door

To unlock the door, enter your 6-digit (or longer) entry code on the keypad, then press the checkmark button. The keypad will illuminate and the August Smart Lock will unlock. If an incorrect code is entered multiple times, the keypad may temporarily disable for security.

3. Auto-Lock and Auto-Unlock Features

The August app offers optional Auto-Lock and Auto-Unlock features. Auto-Lock can be configured to automatically lock your door after a set period (e.g., 30 seconds to 30 minutes) once it has been unlocked. Auto-Unlock can be set to unlock your door automatically as you approach your home with your smartphone. These features can be managed and customized within the August app settings.

4. Activity Log

The August app maintains a detailed activity log, showing who entered or exited your home and at what time. This log provides an overview of all lock and unlock events, whether performed via the keypad, app, or manually.

MAINTENANCE

Battery Replacement

The August Smart Keypad is powered by 2 AAA batteries. The August app will notify you when the battery level is critically low, prompting you to replace them. To replace, slide off the battery cover on the back of the keypad, remove the old batteries, insert new AAA batteries with correct polarity, and reattach the cover.

TROUBLESHOOTING

- **Keypad Not Responding:** Check battery levels and replace if necessary. Ensure the keypad is within Bluetooth range of the August Smart Lock.
- **Bluetooth Connectivity Issues:** Verify the keypad is within 10 feet of the August Smart Lock. Environmental factors (e.g., metal doors, thick walls, humidity) can affect Bluetooth signal strength.

- **Entry Code Not Working:** Ensure the correct 6-digit (or longer) code is entered. If multiple incorrect attempts are made, the keypad may temporarily lock out.
- **App Connectivity Issues:** Ensure your smartphone's Bluetooth is enabled and you are within range of the Smart Lock. For remote access, an August Connect Wi-Fi Bridge is required (sold separately).
- **Firmware Update Issues:** If experiencing problems during firmware updates, ensure your phone remains close to the device and has a stable internet connection. Contact August Home support if issues persist.
