Product Specifications

Specification	Detail
Brand	Denali Pure
Model Number	WF-MWF-3PK-DL4810
UPC	754672556463
Unit Count	3.0 Count
External Testing Certification	NSF (Standard 42)
First Available	September 25, 2015

Key Features and Benefits

- **Improved Water Quality:** Provides safe, clean, and great-tasting water by reducing impurities.
- **Cost-Effective:** An affordable alternative to OEM filters without compromising quality.
- **Efficient Filtration System:** Utilizes multiple layers, including coconut charcoal, for comprehensive filtration.
- **NSF Certified:** System tested and certified by NSF International against NSF/ANSI Standard 42 for the reduction of Chlorine, Taste, and Odor.
- **Easy Installation:** Designed for tool-free, leak-free, and perfect fit installation.

Installation Guide

Before Installation

- Locate your refrigerator's water filter compartment. This is typically inside the refrigerator, in the upper right corner, or in the base grille.
- Turn off the water supply to the refrigerator. This is usually done by turning a valve behind the refrigerator or at the main water supply.
- Have a towel ready to catch any drips.

Installation Steps

1. **Remove the Old Filter:** Depending on your refrigerator model, you may need to push a button, twist the old filter counter-clockwise, or pull it out. Refer to your refrigerator's manual for specific instructions.

2. **Prepare the New Filter:** Remove the protective cap from the new Denali Pure filter.
3. **Insert the New Filter:** Align the new filter with the filter housing. Push the filter firmly into the housing and twist it clockwise until it locks into place. You may hear a click.
4. **Restore Water Supply:** Turn the water supply back on to the refrigerator.
5. **Flush the System:** Dispense about 2-3 gallons of water through the refrigerator's dispenser to flush out air and any carbon fines from the new filter. This is normal and ensures optimal performance.
6. **Reset Filter Indicator:** Most refrigerators have a filter change indicator light. Refer to your refrigerator's manual for instructions on how to reset it. This usually involves pressing and holding a specific button (e.g., "Filter," "Reset," or "Water") for a few seconds.

Operation

Once installed, your Denali Pure water filter will continuously filter the water supplied to your refrigerator's dispenser and ice maker. The filter works by passing water through its multi-layered filtration media, which includes activated

carbon, to reduce contaminants and improve taste and odor. You can immediately begin enjoying cleaner, fresher water and ice.

Maintenance

Filter Replacement Schedule

For optimal performance and water quality, it is recommended to replace your Denali Pure water filter every **6 months** or sooner if you notice a decrease in water flow or taste. Regular replacement ensures that the filter continues to effectively reduce impurities and provides the best possible drinking water.

Image: A visual reminder to replace the filter every 6 months for best performance.

Troubleshooting

Issue	Possible Cause	Solution

Issue	Possible Cause	Solution
Slow Water Flow	Clogged filter, air in system, low water pressure.	Flush the filter for 2-3 gallons. If issue persists, replace filter. Check household water pressure.
Bad Taste/Odor in Water	Filter needs replacement, initial carbon fines.	Flush the filter thoroughly. If taste/odor persists after flushing, replace the filter.
Water Leaks from Filter Area	Filter not properly seated, damaged O-ring.	Remove and re-install the filter, ensuring it is fully twisted and locked. Check O-rings for damage.
Filter Indicator Light Still On	Indicator not reset.	Refer to your refrigerator's manual for specific instructions on how to reset the filter indicator light.

Compatibility

The Denali Pure Replacement Refrigerator Water Filter (Model: WF-MWF-3PK-DL4810) is compatible with a wide range of GE and Kenmore refrigerator models. This filter is designed to be a direct replacement for the following common filter models:

Compatible GE Models:

- MWF
- MWFP
- MWFA
- MWFAP
- MWFINT
- GWF
- GWF01
- GWF06
- GWFA
- HWF
- HWFA
- FMG-1
- FMG

Compatible Kenmore Models:

- 46-9991
- 46 9991
- 469991
- 9991
- 46-9996
- 46 9996
- 469996
- 9996
