1. INTRODUCTION

This manual provides essential information for the proper installation, operation, and maintenance of your Indian Motorcycle Adjustable Passenger Foot Pegs. Designed for enhanced passenger comfort and safety, these foot pegs are a genuine accessory for your Indian Scout motorcycle. Please read these instructions thoroughly before installation and use to ensure optimal performance and safety.

2. PRODUCT FEATURES

- **Enhanced Comfort:** Designed to provide comfortable and stable perches, reducing passenger fatigue during long rides.
- **Sturdy and Secure:** Precision-engineered with grooved rubber covers for a secure grip. Includes a right-hand foot guard to protect the passenger's foot from the exhaust.
- **Adjustable Design:** Both right and left foot pegs conveniently fold up on a hinged pivot when not in use, allowing for solo riding.
- **Enhanced Style:** Features a durable finish that complements the iconic look of Indian Scout motorcycles and matches various color schemes.
- **Easy Installation:** Designed for quick and easy installation using existing factory mount locations on your Scout motorcycle.

3. COMPATIBILITY

These Adjustable Passenger Foot Pegs (Model 2882251-650) are compatible with the following Indian Motorcycle Scout models:

- Indian Scout
- Indian Scout Bobber
- Indian Scout Sixty

- Indian Scout Rogue

Please ensure your motorcycle model is listed above before attempting installation.

4. PACKAGE CONTENTS

Upon opening the package, verify that all the following components are present:

- Left-side Passenger Foot Peg Assembly
- Right-side Passenger Foot Peg Assembly
- Right-hand Foot Guard (integrated with the right-side assembly)
- Mounting Hardware (bolts, washers, etc.)
- Installation Instructions (this document)

If any items are missing or damaged, please contact your Indian Motorcycle dealer or customer support.

5. SAFETY INFORMATION

Always prioritize safety when working on your motorcycle. Improper installation or use of these foot pegs can lead to serious injury or damage to your motorcycle.

- Ensure the motorcycle is stable and turned off before beginning installation.
- Wear appropriate personal protective equipment (PPE), such as gloves and eye protection.
- Do not overtighten or undertighten fasteners. Refer to your motorcycle's service manual for specific torque specifications if available.
- Regularly inspect foot pegs for any signs of wear, damage, or looseness.
- Ensure passenger's feet are securely placed on the pegs at all times during operation.

6. INSTALLATION INSTRUCTIONS

The installation process is designed to be straightforward, utilizing existing factory mount locations. A video guide is available to assist with the installation.

Your browser does not support the video tag.

Video 6.1: Official installation guide for Indian Motorcycle Scout Passenger Pegs (Model 2882251-650).

Step-by-Step Guide:

1. **Prepare Motorcycle:** Park your Indian Scout on a level surface using a kickstand or stand. Ensure the engine is off and cool.
2. **Locate Mounting Points:** Identify the factory mounting points for passenger foot pegs on both sides of the motorcycle. These are typically located near the rear of the frame, below the passenger seat.
3. **Install Left-Side Peg:** Align the left-side passenger foot peg assembly with the corresponding mounting point. Insert the provided mounting hardware (bolts and washers) and hand-tighten.
4. **Install Right-Side Peg:** Align the right-side passenger foot peg assembly, which includes the integrated foot guard, with its mounting point. Due to the proximity of the exhaust system, this side may require careful maneuvering. Insert the provided mounting hardware and hand-tighten.
5. **Tighten Hardware:** Using appropriate tools, tighten all mounting hardware securely. Refer to your motorcycle's service manual for specific torque specifications to prevent overtightening or loosening during operation.
6. **Final Inspection:** After tightening, ensure both foot pegs are firmly attached and can pivot smoothly. Check that the right-hand foot guard provides adequate clearance from the exhaust.

7. OPERATING INSTRUCTIONS

These passenger foot pegs are designed for ease of use and versatility.

- **Deploying Pegs:** To deploy the foot pegs for a passenger, simply pull them down from their folded position until they lock securely into place. Ensure they are fully extended and stable before a passenger mounts the motorcycle.
- **Folding Pegs:** When riding solo, the foot pegs can be folded up and out of the way. Push the peg upwards until it clicks into its stowed position. This prevents them from interfering with your riding or the motorcycle's aesthetics.
- **Passenger Safety:** Instruct your passenger to keep their feet firmly on the pegs at all times during travel. The grooved rubber surface provides excellent grip, but proper foot placement is crucial for stability and safety.

8. MAINTENANCE

Regular maintenance will ensure the longevity and safe operation of your passenger foot pegs.

- **Cleaning:** Clean the foot pegs regularly with a mild soap and water solution. Avoid harsh chemicals or abrasive cleaners that could damage the finish or rubber grips.
- **Inspection:** Periodically inspect all mounting hardware for tightness. Check the rubber grips for wear or damage. Ensure the pivot mechanism operates smoothly and without excessive play.
- **Lubrication:** If the pivot mechanism becomes stiff, apply a small amount of motorcycle-safe lubricant to the pivot points.

9. TROUBLESHOOTING

Problem	Possible Cause	Solution
Foot peg feels loose after installation.	Mounting hardware not tightened sufficiently.	Re-tighten mounting bolts to recommended torque specifications.
Foot peg does not fold up or down smoothly.	Dirt/debris in pivot mechanism or lack of lubrication.	Clean pivot points and apply motorcycle-safe lubricant.
Rubber grips are worn or damaged.	Normal wear and tear or exposure to harsh elements.	Contact Indian Motorcycle for replacement grips or a new assembly.

10. SPECIFICATIONS

Model Number: 2882251-650

Brand: Indian Motorcycle

Color: Gray/Silver (Titanium finish)

Material: Metal with Grooved Rubber Grips

Vehicle Service Type: Motorcycle

Fit Type: Vehicle Specific Fit (Indian Scout models)

Item Weight: Approximately 6 pounds (pair)

Orientation: Rear (Passenger)

Package Dimensions: Approximately 10 x 7 x 4 inches
