Key Features:

- **GPS Navigation:** Built-in GPS with coverage for all 50 US States and Puerto Rico, including pre-loaded points of interest and text-to-speech guidance.
- **Bluetooth Connectivity:** Hands-free calling and audio streaming for music apps like Pandora and Spotify.
- **Media Playback:** Supports DVD/CD, USB, SD card, and AM/FM radio.
- **Auxiliary Input:** 3.5mm Aux-in for external audio devices.
- **Inputs/Outputs:** USB/SD ports, AUX input, rearview camera input (camera sold separately), front, rear, and subwoofer pre-amp outputs, video output.
- **Steering Wheel Control Ready:** Compatible with existing steering wheel controls (interface module sold separately).
- **Built-in Equalizer:** Customize audio with balance, fader, bass, and treble controls.
- **Wireless Remote Control:** Included for convenient operation.

2. Setup and Installation

Professional installation of this product is strongly recommended to ensure proper and safe functionality. Incorrect installation can lead to damage to the unit or vehicle.

2.1 Wiring Connections

Refer to the wiring diagram for detailed connections. Ensure all power, ground, speaker, and accessory wires are correctly connected. The unit includes various inputs and outputs for integration with your vehicle's audio system and accessories.

3. Operating Instructions

This section details the primary functions and how to operate your BV9384NV receiver.

Your browser does not support the video tag.

This video provides a brief overview of the inputs, outputs, and playback capabilities of the BOSS Audio Systems BV9384NV receiver.

3.1 GPS Navigation

Access the navigation function from the main menu. The built-in GPS provides turn-by-turn directions with text-to-speech prompts. Use the touchscreen to input destinations, search for points of interest, and customize route preferences.

The GPS navigation screen showing a map with route information and current location.

3.2 Bluetooth Operation

- **Pairing:** Enable Bluetooth on your mobile device and search for 'BOSS Audio BV9384NV'. Select the unit to pair.
- **Hands-Free Calling:** Once paired, you can answer, make, and end calls directly from the unit's touchscreen. The built-in microphone captures your voice.
- **Audio Streaming:** Stream music from your paired device. Control playback (play/pause, skip tracks) from the receiver.

3.3 Media Playback

- **DVD/CD:** Insert a disc into the slot. The unit will automatically detect and begin playback.
- **USB/SD:** Insert a USB drive or SD card into the respective port. Select the USB or SD source from the main menu to browse and play media files.
- **AM/FM Radio:** Select the Radio source. Use the touchscreen to tune to stations, save presets, and switch between AM and FM bands.
- **Auxiliary Input:** Connect an external audio device to the 3.5mm AUX-in port. Select the AUX source to play audio from the connected device.

3.4 Audio Settings and Equalizer

Access the audio settings menu to adjust balance, fader, bass, and treble. The built-in equalizer allows for further sound customization to suit your preferences.

4. Maintenance

To ensure the longevity and optimal performance of your BV9384NV receiver, follow these general maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the touchscreen and unit exterior. Avoid abrasive cleaners or solvents.
- **Disc Care:** Handle discs by their edges to prevent scratches. Keep discs clean and store them in their cases when not in use.
- **Temperature:** Avoid exposing the unit to extreme temperatures, which can affect performance and lifespan.

5. Troubleshooting

If you encounter issues with your BV9384NV, refer to the following basic troubleshooting steps:

- **No Power:** Check all power connections and fuses. Ensure the vehicle's ignition is on.
- **No Audio:** Verify speaker connections. Check volume levels and audio source selection. Ensure the mute function is not active.
- **Bluetooth Pairing Issues:** Ensure Bluetooth is enabled on both devices and the unit is in pairing mode. Delete previous pairings and try again.
- **GPS Signal Loss:** Ensure the GPS antenna is properly connected and has a clear view of the sky.
- **Disc Read Error:** Check the disc for scratches or dirt. Try a different disc.

For more complex issues, consult the full user manual (PDF) or contact BOSS Audio Systems customer support.
