MAINTENANCE

Proper care ensures the longevity and performance of your microphone:

- **Cleaning:** Wipe the microphone body with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the microphone in a dry, cool place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid sharp bends or kinks in the microphone cable. Coil the cable loosely when storing to prevent damage.
- **Handling:** Handle the microphone with care. Avoid dropping it or subjecting it to strong impacts.

TROUBLESHOOTING

If you encounter issues with your Singtrix SGTXMIC1 microphone, refer to the following common solutions:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
No sound from microphone	Microphone not properly connected; system volume too low; microphone or cable damage.	Ensure the microphone cable is fully inserted into the input jack. Check the volume settings on your Singtrix system. Inspect the cable for visible damage. Try connecting the microphone to a different compatible input if available.
Intermittent sound or crackling	Loose connection; damaged cable; interference.	Verify all connections are secure. Examine the cable for any signs of wear or internal breaks. Ensure no other electronic devices are causing interference nearby.
"Hit" button effects not activating	System not recognizing button press; system effects disabled.	Confirm your Singtrix system is in a mode that supports vocal effects. Refer to your Singtrix system's manual for troubleshooting effect activation.
