

Preethi MG-212

Preethi Steele Max Mixer Grinder MG-212 Instruction Manual

MODEL: MG-212

1. Introduction

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your Preethi Steele Max Mixer Grinder, Model MG-212. Please read these instructions carefully before first use and retain for future reference.

2. Safety Instructions

- Always ensure the mixer grinder is placed on a stable, flat surface.

- Do not immerse the motor unit in water or any other liquid. Clean with a damp cloth only.
- Keep hands and utensils out of the jar during operation to prevent injury and damage.
- Ensure the lid is securely locked before starting the appliance.
- Unplug the appliance from the power outlet when not in use, before cleaning, or when changing accessories.
- This appliance is equipped with a shock-proof ABS body and a heat-sensitive cut-off system to protect against voltage fluctuations and overload.
- A slight burning smell may occur during the first few uses due to motor varnish heating. This is normal and should dissipate with subsequent use. If it persists, contact the service center.
- The operating noise level is approximately 80 dB. This is within acceptable industry standards for mixer grinders. If noise seems excessively high, contact the service center.
- Do not operate the appliance with a damaged cord or plug.

3. Product Components

Your Preethi Steele Max Mixer Grinder includes the following components:

- Main Motor Unit (Bottom Assembly Steele Max)
- 1.5 Litre Jar with Dome Lid
- 1.0 Litre Jar with Flat Lid
- 0.5 Litre Chutney Jar with Dome Lid
- Stirrer
- Instructional Manual (this document)
- Warranty Card

Image 3.2: Overview of the mixer grinder components, including the 750 Watt motor, chrome plated handles, shock-proof design, LED indicator, 3-speed control with pulse, and vacuum grip base.

4. Setup

1. **Unpack:** Carefully remove all components from the packaging. Retain packaging for storage or future transport.
2. **Placement:** Place the main motor unit on a clean, dry, stable, and level surface. Ensure there is adequate ventilation around the unit.
3. **Initial Cleaning:** Before first use, wash the jars, lids, and blades with warm soapy water. Rinse thoroughly and dry completely. Wipe the main motor unit with a damp cloth.
4. **Attach Jar:** Place the desired jar onto the motor unit and turn it clockwise until it locks securely into position.
5. **Connect Power:** Plug the power cord into a suitable electrical outlet (230 Volts).

5. Operating Instructions

1. **Prepare Ingredients:** Cut ingredients into small pieces suitable for grinding. Do not overload the jar beyond its specified capacity.
2. **Load Jar:** Place the prepared ingredients into the chosen jar.
3. **Secure Lid:** Place the lid firmly on the jar and ensure it is properly seated. For jars with dome lids, ensure the dome is securely in place.
4. **Select Speed:** Turn the knob control to the desired speed setting (1, 2, or 3). The mixer grinder also features a pulse function for short bursts of power.
5. **Operation:** Allow the mixer grinder to operate until the desired consistency is achieved. Avoid continuous operation for extended periods.
6. **Stop:** Turn the knob control to the 'OFF' position after use.
7. **Unload:** Wait for the blades to stop completely before removing the lid and then the jar.

The mixer grinder features **Turbo Vent Technology**, which helps keep the motor cool during operation, extending its lifespan and preventing heat transfer to ingredients. The chrome-plated handles are designed for comfortable and secure handling.

6. Maintenance and Cleaning

- **Before Cleaning:** Always unplug the appliance from the power supply.

- **Jars and Lids:** Wash jars, lids, and blades immediately after use to prevent food from drying on them. They can be washed with warm soapy water or placed in a dishwasher as they are dishwasher safe.
- **Motor Unit:** Wipe the main motor unit with a soft, damp cloth. Do not use abrasive cleaners or immerse the unit in water. The anti-finger mark coating on the steel body helps maintain its appearance and simplifies cleaning.
- **Storage:** Store the mixer grinder and its accessories in a clean, dry place.

7. Troubleshooting

Problem	Possible Cause	Solution
Burning smell during first use	Motor varnish heating for the first time.	This is normal and should not recur after initial uses. If it persists, contact the service center.
High noise level	Powerful motor operation.	Operating noise level is approximately 80 dB, which is within acceptable industry standards. If noise seems significantly higher, contact the service center.
Mixer grinder stops during operation	Overload or overheating.	The heat-sensitive cut-off system has activated. Turn off the appliance, unplug it, reduce the load in the jar, and allow it to cool down for a few minutes before restarting.
Appliance does not start	Not plugged in, jar not properly locked, or power outage.	Check power connection, ensure jar is securely locked onto the motor unit, and verify power supply.

8. Specifications

Brand: Preethi

Model Name: MG-212

Colour: Steel/Black

Product Dimensions (D x W x H): 20D x 22W x 45H Centimeters

Material: Stainless Steel (Jars), ABS (Motor Unit Body)

Capacity: 1.5 Litres (Large Jar), 1.0 Litre (Medium Jar), 0.5 Litre (Chutney Jar)

Voltage: 230 Volts

Wattage: 750 Watts

Controls Type: Knob Control

Item Weight: 4000 Grams (4 kg)

Noise Level: 80 Decibels

Number Of Speeds: 3 + Pulse

Blade Material: Alloy Steel

Dishwasher Safe (Jars/Lids): Yes

Special Features: Anti Finger Mark Coating, Turbo Vent Technology, Shock-proof Body

9. Warranty and Support

Your Preethi Steele Max Mixer Grinder MG-212 comes with a **2-year product warranty**. Additionally, Preethi offers **lifelong free service** for this product.
