

Skil-Care 503030

Skil-Care Heel Protectors Instruction Manual

MODEL: 503030

Product Overview

The Skil-Care Heel Protectors are designed to provide soft padding and support for the heel, promoting everyday foot health and comfort. These ultra-soft, fiber-filled cushions feature a low-shear lining, making them suitable for routine foot care in various settings, including home or medical environments.

- **Foot Health Support Cushion:** Provides soft padding for the heel during rest or limited movement.
- **Contoured Heel Cushion Design:** Helps cradle the heel in place for consistent positioning.
- **Pressure Area Heel Protection:** Reduces pressure on sensitive heel areas, supporting comfort and positioning.
- **Medical Care Use Settings:** Suitable for hospitals, long-term care facilities, and supervised home environments.
- **Daily Heel Comfort Aid:** Reusable cushion for gentle padding as part of everyday foot care routines.

Important Safety Guidelines

Please read and follow these safety instructions carefully to ensure proper use and prevent injury or damage to the product.

- Always ensure the cushion remains securely in place while walking or standing.
- Do not expose the cushion to open flames or high heat sources.
- Keep the product away from heaters, open flames, and other heat sources.
- Do not iron, dry clean, or use harsh chemicals on the cushion.
- In case of a fire, follow standard safety procedures: stop, drop, and roll the cushion to extinguish flames.
- If the cushion becomes dislodged during use, stop immediately and reattach it to prevent falls or injuries.

Setup and Installation

Follow these steps to properly set up your Skil-Care Heel Protectors:

1. Remove the heel cushion from its packaging.
2. Attach the cushion to the inside of your shoe using the integrated Velcro closure.
3. Adjust the position of the cushion to achieve optimal heel support and comfort.
4. For best results, ensure the cushion remains firmly in place while walking or standing.
