OPERATING (HOW TO PLAY)

- Objective:** The goal is to be the first player to reach square 100 on the gameboard.
- Taking a Turn:** On your turn, spin the spinner. The number it lands on indicates how many spaces you move your character pawn forward.
- Ladders:** If your pawn lands exactly on a space at the bottom of a ladder, you get to climb up to the space at the top of that ladder.
- Chutes:** If your pawn lands exactly on a space at the top of a chute, you must slide down to the space at the bottom of that chute.
- No Reading Required:** This game is designed for young children and relies on number recognition and visual cues, making it accessible for those who haven't learned to read yet.
- Winning the Game:** The first player to land on or pass square 100 wins!
