

Edifier EIR_P210_BLE

Edifier P210 In-Ear Headphones User Manual

Model: EIR_P210_BLE

1. INTRODUCTION

The Edifier P210 in-ear headphones are designed for mobile use, offering a comfortable listening experience with integrated microphone functionality. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance of your device.

Key features include an in-line microphone with control button for calls and media playback, effective noise isolation, and a comfortable in-ear design with multiple ear tip sizes for a perfect fit. The headphones are equipped with 9mm neodymium drivers for high-fidelity sound quality.

2. SETUP

2.1 Package Contents

- Edifier P210 In-Ear Headphones
- Multiple pairs of silicone ear tips (Small, Medium, Large)

2.2 Connecting to Your Device

The Edifier P210 headphones connect via a standard 3.5mm audio jack. Simply insert the 3.5mm plug into the headphone port of your smartphone, tablet, laptop, or any compatible audio device.

3. OPERATING INSTRUCTIONS

3.1 Audio Playback

Once connected, audio from your device will automatically play through the headphones. Adjust the volume directly on your connected device.

3.2 Using the In-Line Microphone and Control Button

The Edifier P210 features an in-line microphone and a multi-function button for convenient control of calls and music playback.

- **Single Press:**

- Answer an incoming call.
- End an active call.
- Play/Pause music playback.

- **Double Press:**

- Skip to the next track (during music playback).

- **Triple Press:**

- Go back to the previous track (during music playback).

- **Press and Hold:**

- Decline an incoming call.
- Activate voice assistant (e.g., Siri, Google Assistant) on compatible devices.

4. MAINTENANCE

4.1 Cleaning

To maintain hygiene and sound quality, regularly clean your headphones. Gently wipe the earpieces and cable with a soft, dry, lint-free cloth. For the silicone ear tips, you may remove them and wash with mild soap and water, ensuring they are completely dry before reattaching.

Do not use harsh chemicals, abrasive cleaners, or immerse the headphones in water.

4.2 Storage

When not in use, store your headphones in a clean, dry place, away from extreme temperatures and direct sunlight. Avoid tangling the cable to prevent damage.

5. TROUBLESHOOTING

If you encounter issues with your Edifier P210 headphones, please refer to the following common problems and solutions:

5.1 No Sound or Low Volume

- Ensure the 3.5mm jack is fully inserted into your device's audio port.
- Check the volume level on your connected device.
- Test the headphones with another device to rule out a device-specific issue.
- Inspect the cable for any visible damage or kinks.

5.2 Microphone Not Working or Poor Call Quality

- Ensure the 3.5mm jack is fully inserted. Some devices may require a TRRS (Tip-Ring-Ring-Sleeve) jack for microphone functionality, which the P210 provides.
- Check your device's audio settings to ensure the external microphone is selected.
- Test the microphone with another device or application.
- Note that the microphone's ability to filter ambient noise may vary depending on the environment and device.

5.3 Uncomfortable Fit or Poor Noise Isolation

- Try different sizes of the included silicone ear tips. A proper seal is crucial for both comfort and noise isolation.
- Ensure the earpieces are inserted correctly into your ear canal.

6. SPECIFICATIONS

Feature	Detail
Model Name	Edifier P210
Item Model Number	EIR_P210_BLE
Connectivity Technology	Wired (3.5mm Jack)
Driver Unit	9mm Neodymium Drivers
Frequency Response	20Hz - 20kHz

Feature	Detail
