## KOOTION BK001016

# KOOTION 10 x 16GB USB 2.0 Flash Drive Instruction Manual

Model: BK001016

## 1. INTRODUCTION

---

Thank you for choosing the KOOTION 10 x 16GB USB 2.0 Flash Drives. This pack includes ten individual 16GB USB flash drives designed for reliable data storage and transfer. Each drive features a convenient 360-degree swivel metal cover and an integrated loop for easy attachment to keychains.

These flash drives are ideal for storing and sharing various digital files, including documents, music, photos, and videos. Their plug-and-play functionality ensures ease of use across multiple devices and operating systems.

## 2. SETUP

---

The KOOTION USB flash drives are designed for simple plug-and-play operation, requiring no special software installation for basic use.

### 2.1 Connecting the Flash Drive

1. Locate an available USB Type-A port on your computer or compatible device.
2. Insert the USB flash drive firmly into the USB port. The device should automatically detect the flash drive.
3. A built-in LED indicator on the flash drive will illuminate or blink to show that the drive is active and data transfer is occurring.

## 2.2 Compatibility

These USB 2.0 flash drives are compatible with a wide range of operating systems, including:

- Windows 7 / 8 / 10 / Vista / XP / 2000 / ME / NT
- Linux
- Mac OS

They are also backward compatible with older USB standards.

## 3. OPERATING

---

### 3.1 Data Transfer

Once connected, the flash drive will appear as a removable disk in your computer's file explorer. You can drag and drop files to and from the drive, or use copy/paste functions to manage your data.

The USB 2.0 interface provides a read speed of approximately 12 MB/s and a write speed of approximately 4 MB/s. Actual speeds may vary based on file size, system configuration, and other factors.

### 3.2 Usage with Other Devices

These flash drives are versatile and can be used with various devices beyond computers:

- **Speakers:** Plug the flash drive into compatible speakers to play stored music files directly.
- **Car Audio Systems:** Many modern car audio systems support USB input for playing music. Insert the flash drive to enjoy your favorite songs on the go.

## 4. MAINTENANCE

---

To ensure the longevity and optimal performance of your KOOTION USB flash drives, follow these maintenance guidelines:

- **Physical Protection:** The metal swivel cover protects the USB connector from dust and physical damage when not in use. Avoid excessive force when rotating the cover.
- **Storage:** Store the flash drives in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cleaning:** If necessary, gently wipe the exterior of the flash drive with a soft, dry cloth. Do not use liquid cleaners or solvents.
- **Safe Removal:** Always safely eject the flash drive from your device before physically removing it to prevent data corruption.

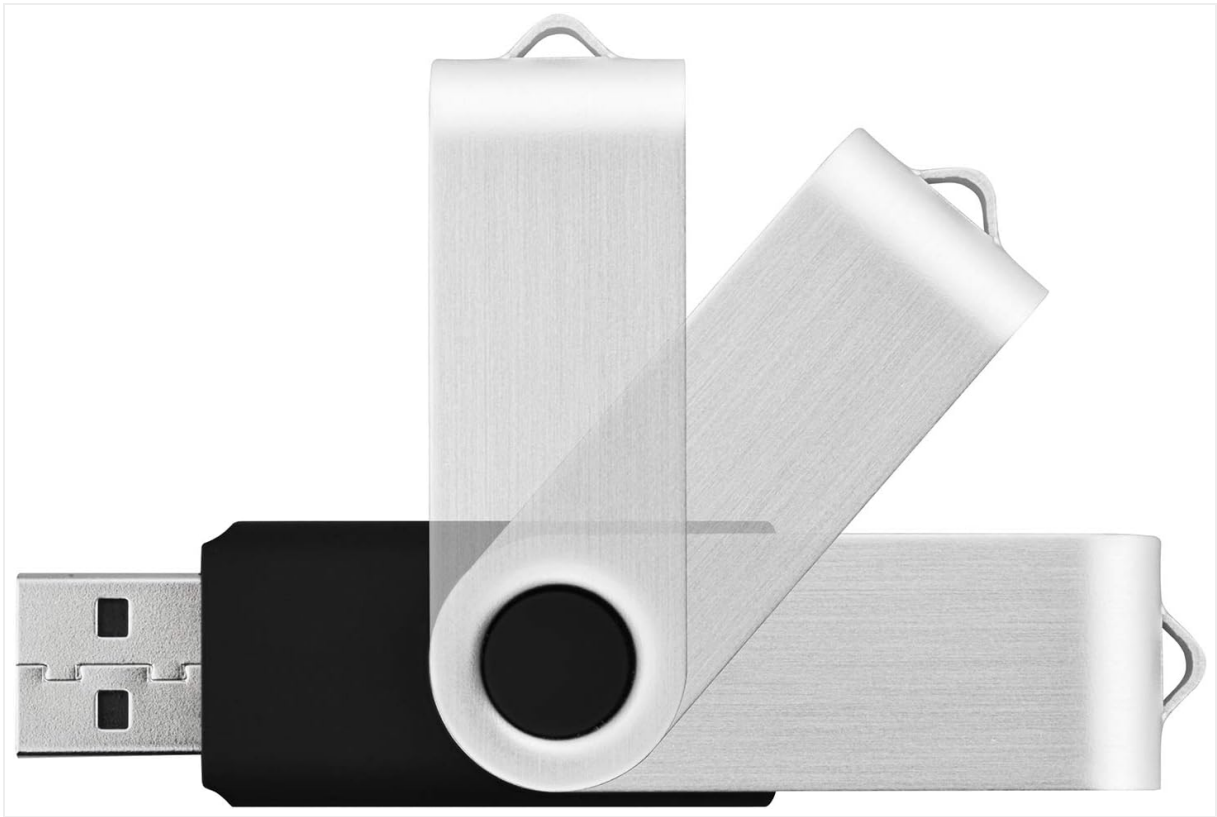

Image 5: 360-degree swivel design for protection.

Image 6: Keychain design for easy portability.

If you encounter issues with your KOOTION USB flash drive, consider the following common solutions:

- **Drive Not Detected:** Try plugging the flash drive into a different USB port or a different computer to rule out a port issue. Ensure the drive is fully inserted.
- **Data Transfer Errors:** Ensure there is sufficient free space on the flash drive. Safely eject and re-insert the drive. If issues persist, the drive may need to be formatted (see below).
- **Slow Performance:** USB 2.0 speeds are inherently slower than USB 3.0. Ensure your device's USB port is functioning correctly. Large file transfers will naturally take longer.
- **Reformatting the Drive:** If the drive becomes corrupted or unreadable, you may need to reformat it. **Warning: Reformatting will erase all data on the drive. Back up any important files before proceeding.** To reformat, right-click the drive in your computer's file explorer, select 'Format', and choose the desired file system (e.g., FAT32 for broad compatibility).

## 6. SPECIFICATIONS

---

Feature	Specification
Brand	KOOTION
Model Name	USB 2.0 Thumb Drives
Item Model Number	BK001016
Memory Storage Capacity	16 GB (per drive)
Hardware Interface	USB 2.0
Read Speed	12 Megabytes Per Second
Write Speed	4 Megabytes Per Second
Connectivity Technology	USB
Hardware Platform	Mac, PC
Product Dimensions (LxWxH)	2.28 x 0.71 x 0.39 inches
Item Weight	0.353 ounces (per drive)
Special Feature	10-Pack, Magnetic Proof, Swivel Design, Keychain Loop, LED Indicator

## 7. WARRANTY AND SUPPORT

---

For warranty information, technical support, or any questions regarding your KOOTION USB flash drives, please contact KOOTION customer service through the retailer where you purchased the product or visit the official KOOTION website. Please retain your proof of purchase for warranty claims.
