

Kenley hfl-001

Kenley Natural Daylight Floor Lamp (Model hfl-001) User Manual

1. INTRODUCTION AND OVERVIEW

The Kenley Natural Daylight Floor Lamp, Model hfl-001, is designed to provide bright, natural lighting that mimics noon sunshine. This task lamp is ideal for activities requiring clear visibility and accurate color perception, such as reading, crafting, sewing, or working in an office environment. Its adjustable gooseneck allows for precise light positioning, and the energy-saving bulb offers long-lasting illumination.

The Kenley Natural Daylight Floor Lamp, featuring a flexible gooseneck and a sturdy base, designed to provide natural light for various tasks.

2. PRODUCT FEATURES

- **Natural Daylight Simulation:** Emits light with a color temperature of 6400K, closely resembling natural

daylight to reduce eye strain and enhance focus.

- **Adjustable Gooseneck:** Features a flexible, 360-degree rotating gooseneck for directing light precisely where needed.
- **Energy-Saving Bulb:** Includes a 27W energy-saving bulb with an average life of up to 8,000 hours.
- **True Color Experience:** Provides accurate color rendering, making it suitable for detailed tasks and hobbies.
- **Sturdy and Stable Base:** Designed with a heavy base to ensure stability and prevent tipping.
- **Easy Assembly:** Minimal assembly required, typically completed in a few minutes.

BRIGHT AND SAFE

☀️ **Natural** light

positioning for
flexibility

☀️ Energy-saving
bulb with
8000-hour
lifespan

This image illustrates the lamp's natural light output, which helps reduce eye strain and fatigue, making it suitable for extended reading or crafting sessions. The adjustable design allows for precise light positioning.

The lamp provides light that accurately renders colors, which is beneficial for detailed work such as sewing, painting, or other crafts where color precision is important.

3. PACKAGE CONTENTS

Please verify that all components are present before beginning assembly:

- Lamp Head with Gooseneck
- Upper Pole Section
- Middle Pole Section
- Lower Pole Section
- Base
- Energy-Saving Bulb (pre-installed or separate)
- Power Cord
- Instruction Manual

4. SETUP AND ASSEMBLY

Assembly of the Kenley Natural Daylight Floor Lamp is straightforward and typically takes only a few minutes. Follow these steps:

1. Carefully unpack all components and lay them out on a clean, flat surface.
2. Identify the three pole sections. One section will have a small hole on the side near one end; this is the bottom pole.

3. Gently push the wiring through the first pole section (the one connected to the lamp head).
4. Screw the pole sections together, ensuring the wiring passes through each section without twisting or pinching. A small amount of petroleum jelly or light oil on the threads can aid in smooth assembly.
5. Once the pole is assembled, remove any protective rubber piece from the base stub.
6. Align the assembled pole with the base. The bottom pole section will have a small screw hole.
7. Insert the pole into the base and secure it by tightening the small screw into the designated hole on the base stub.
8. Ensure the bulb is securely seated in the lamp head.
9. Plug the power cord into a standard wall outlet. An extension cord may be necessary depending on the lamp's placement due to the cord length.

This video illustrates the simple assembly process of the Kenley Natural Daylight Floor Lamp and demonstrates its key functionalities, such as the adjustable head and the quality of its natural daylight illumination.

5. OPERATING INSTRUCTIONS

The Kenley Natural Daylight Floor Lamp features a simple on/off switch for operation.

- **Power On/Off:** Locate the switch on the lamp head. Flip the switch to the 'ON' position to turn on the light, and to the 'OFF' position to turn it off. Please note that this model does not include a dimmer function; it operates at a single brightness setting.
- **Adjusting Light Direction:** The flexible gooseneck allows you to easily bend and rotate the lamp head 360 degrees to direct the light beam to your desired area.

6. MAINTENANCE

- **Cleaning:** Ensure the lamp is unplugged before cleaning. Use a soft, dry cloth to wipe down the lamp head, pole, and base. Avoid using abrasive cleaners or solvents, as these may damage the finish.
- **Bulb Replacement:** The included energy-saving bulb has a long lifespan. When replacement is necessary, ensure the lamp is unplugged and the bulb has cooled. Refer to the bulb specifications for the correct replacement type.
- **Storage:** If storing the lamp, ensure it is unplugged and disassembled if desired. Store in a dry, safe place to prevent damage.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on	Not plugged in; power outlet not working; bulb loose or faulty; switch in 'OFF' position.	Ensure the lamp is securely plugged into a working outlet. Check the on/off switch. Verify the bulb is properly seated or replace it if necessary.

Problem	Possible Cause	Solution
Light is flickering	Loose bulb connection; faulty bulb.	Unplug the lamp, then gently tighten the bulb. If flickering persists, replace the bulb.
Lamp is unstable	Base not securely attached to the pole.	Ensure the screw connecting the pole to the base is fully tightened. Place the lamp on a flat, stable surface.
