## AFUNTA F1022-C12Mouse

# AFUNTA C12 Gaming Mouse User Manual

Model: F1022-C12Mouse | Brand: AFUNTA

## INTRODUCTION

---

Welcome to the AFUNTA C12 Gaming Mouse user manual. This guide provides detailed instructions for setting up, operating, and maintaining your new gaming mouse. Designed for precision and customization, the C12 mouse features 12 programmable buttons, adjustable DPI settings, and dynamic LED lighting to enhance your gaming experience. Please read this manual thoroughly to ensure optimal performance and longevity of your device.

## KEY FEATURES

---

- **12 Programmable Buttons:** Customize functions for gaming and productivity.
- **Adjustable DPI:** Support 4 levels (1000-1500-2000-4000) with double-speed adjustment up to 8000DPI.
- **Dynamic LED Lighting:** 7-color cycle breathing effect for a visually immersive experience.
- **Quick Thumb Function:** 6 number keys on the left side, programmable for convenient operation.
- **Fire Key:** Triple-click button for rapid actions in games.
- **Adjustable Weight System:** Built-in 8 weights for personalized balance and feel.
- **Ergonomic Design:** Contoured body and smooth TEFLON feet pads for comfortable and precise control.
- **Durable Cable:** High-end 6ft braided-fiber cable with gold-plated USB connector.

## PACKAGE CONTENTS

---

- AFUNTA Programmable Gaming Mouse
- Instruction Manual
- Software CD
- Extra Foot Pads

## SETUP

---

### 1. Connecting the Mouse

The AFUNTA C12 Gaming Mouse is a wired USB device. Simply plug the gold-plated USB connector into an available USB port on your computer (PC, Mac, PS3, Linux, Windows, Android). The operating system should automatically detect and install the necessary basic drivers.

### 2. Software Installation

For full customization of the 12 programmable buttons, DPI settings, and LED lighting, you will need to install the accompanying software.

1. Insert the provided mini-CD into your computer's CD drive.
2. Follow the on-screen instructions to install the software. If you do not have a CD drive, please visit the official AFUNTA support website to download the latest software drivers.

3. Once installed, launch the software to access the customization options.

## OPERATING INSTRUCTIONS

---

### DPI Adjustment

The C12 mouse supports 4 levels of DPI (Dots Per Inch) adjustment: 1000, 1500, 2000, and 4000. You can switch between these levels using the dedicated DPI buttons located on the top of the mouse, typically marked with '+' and '-'. The mouse also supports a double-speed adjustment, allowing for a maximum movement speed of up to 8000DPI.

### Programmable Buttons

The mouse features 12 buttons, including the standard left/right click, scroll wheel, DPI buttons, and 6 number keys on the left side designed for thumb access.

- **Customization:** Use the installed software to program each of the 12 buttons. You can assign single key presses, macros, or specific functions to suit your gaming or work needs.
- **Quick Thumb Function:** The 6 number keys (1-6) on the left side are ideal for quick access to spells, items, or commands in MMO games.
- **Fire Key:** The dedicated "Fire" key (often red, located near the left click button) provides a rapid triple-click function, useful for quick firing in shooter games.

## LED Light Modes

The C12 mouse features a 7-color cycle breathing effect, providing a vibrant visual appeal. The lighting can be configured or toggled through the mouse's software.

## Weight Adjustment

The mouse includes a built-in weight adjustment system with 8 removable weights. This allows you to customize the mouse's weight and balance to your preference, enhancing control and comfort.

Image: The underside of the mouse, revealing the compartment where the adjustable weights are stored.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the mouse surface. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the mouse.
- **Sensor:** Keep the optical sensor on the underside of the mouse clean and free from dust or debris to ensure accurate tracking.
- **Foot Pads:** The mouse features smooth TEFLON feet pads for optimal glide. If these pads show signs of wear or become detached, use the provided extra foot pads for replacement. Ensure the protective plastic film is removed from new pads before application.
- **Cable Care:** Avoid sharp bends or excessive pulling on the braided USB cable to prevent damage.

## TROUBLESHOOTING

Problem	Solution
Mouse not responding.	Ensure the USB cable is securely plugged into a working USB port. Try a different USB port or computer to rule out port issues.
DPI settings not changing.	Verify that the mouse software is installed and running. Check the software settings to ensure DPI levels are configured correctly.
Programmable buttons not working.	Open the mouse software and ensure the buttons are correctly assigned. Save your profile and apply it. Restart the application or game if necessary.

Problem	Solution
Mouse tracking is erratic or inaccurate.	Clean the optical sensor on the underside of the mouse. Ensure you are using the mouse on a clean, uniform surface or a high-quality mouse pad.
Mouse feet pads are peeling or causing drag.	Replace the worn-out feet pads with the extra ones provided in the package. Ensure any protective film is removed from new pads.
LED lights are not functioning correctly.	Check the LED settings within the mouse software. Ensure the lighting mode is enabled and configured as desired.

## SPECIFICATIONS

<b>Model Number</b>	F1022-C12Mouse
