

## SereneLife IPCAMHD61

# SereneLife IPCAMHD61 Indoor Wireless IP Camera User Manual

Model: IPCAMHD61

## 1. INTRODUCTION AND OVERVIEW

The SereneLife IPCAMHD61 is an indoor wireless IP camera designed for home monitoring and security. It offers high-definition video, flexible connectivity options, and advanced features to enhance your surveillance capabilities. This manual provides comprehensive instructions for the proper setup, operation, and maintenance of your device.

Key features include:

- **Crystal Clear HD Video:** 1080p (2MP) full high-definition resolution for sharp images day or night.
- **Flexible Connectivity:** Supports both Wi-Fi and Ethernet network connections.
- **Pan/Tilt/Zoom (PTZ):** Motorized pan (350°) and tilt (100°) rotation with digital zoom for comprehensive coverage.
- **Two-Way Audio:** Built-in microphone and speaker for real-time communication.
- **Night Vision:** Infrared (IR) LED for monitoring in complete darkness up to 10 meters.
- **Motion Detection:** Configurable alerts and recording based on detected movement.
- **Remote Access:** Monitor live feeds and recordings via the MIPC app on iOS/Android smartphones or a web browser on Mac/PC.
- **Recording Options:** Supports 24-hour, motion detection, or scheduled recording modes.

## 2. PACKAGE CONTENTS

Please verify that all items are present in your package:

- SereneLife IPCAMHD61 IP Camera
- Power Adapter (AC/DC)
- Mounting Accessories (for ceiling or wall mount)
- User Manual (this document)

### 3. PRODUCT FEATURES

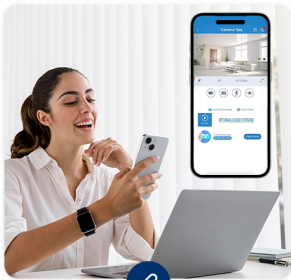

**High Definition 1080p Video:** The camera captures video in 1080p resolution, providing clear and detailed images for effective monitoring.

**SEE CLEARLY EVEN IN THE DARK**

Check the IP security camera with audio live feed in the dark up to 50 feet. The WiFi camera also has AI sound and human detection.

**STAY CONNECTED, ANYWHERE!**

Remote monitor indoor wifi camera recording via P2P stream like a pro. Digitally zoom the indoor ip cameras using any mobile smartphone, MAC, or PC with the "MIPC" app.

**Night Vision and Remote Access:** The camera provides clear visibility in low-light conditions up to 50 feet using infrared LEDs. It also allows remote monitoring from anywhere via the MIPC app on mobile devices or a web browser on a computer.

**Pan, Tilt, and Digital Zoom:** Control the camera's viewing angle remotely with 350° horizontal pan and 100° vertical tilt. Digital zoom allows for closer inspection of details. The camera supports vertical, wall, and ceiling mounting.

**Two-Way Audio:** Communicate directly through the camera using the built-in microphone and speaker. This feature allows you to hear sounds from the camera's location and speak back through your connected device.

## 4. SETUP GUIDE

### 4.1 Initial Setup

1. **Power On:** Connect the camera to the power adapter and plug it into an electrical outlet. The camera will initiate its startup sequence.
2. **Network Connection:** For initial setup, it is recommended to connect the camera to your router using an Ethernet cable. This ensures a stable connection during the configuration process.

### 4.2 App Installation

The SereneLife IPCAMHD61 camera is controlled via the MIPC app (also referred to as "Sereneviewer" in

some contexts). Follow these steps to install the app:

**MIPC Mobile App:** Download the MIPC app from your device's app store for remote control and monitoring.

1. **Download:** Search for "MIPC" in the Apple App Store (for iOS devices) or Google Play Store (for Android devices).
2. **Install:** Download and install the app on your smartphone or tablet.
3. **Account Creation:** Open the MIPC app and create a new user account. A single account can manage multiple cameras.

### 4.3 Wi-Fi Configuration

After installing the app and creating an account, proceed with Wi-Fi setup:

1. **Add Camera:** In the MIPC app, select the option to add a new camera.
2. **Scan QR Code:** Use your smartphone's camera to scan the unique QR code located on the bottom of your IPCAMHD61 camera.
3. **Default Password:** You will be prompted to change the default manufacturer password for security purposes. Create a strong, unique password.
4. **Wireless Access:** Select your home Wi-Fi network from the list and enter your Wi-Fi password.
5. **Disconnect Ethernet:** Once Wi-Fi is successfully configured, you can disconnect the Ethernet cable.

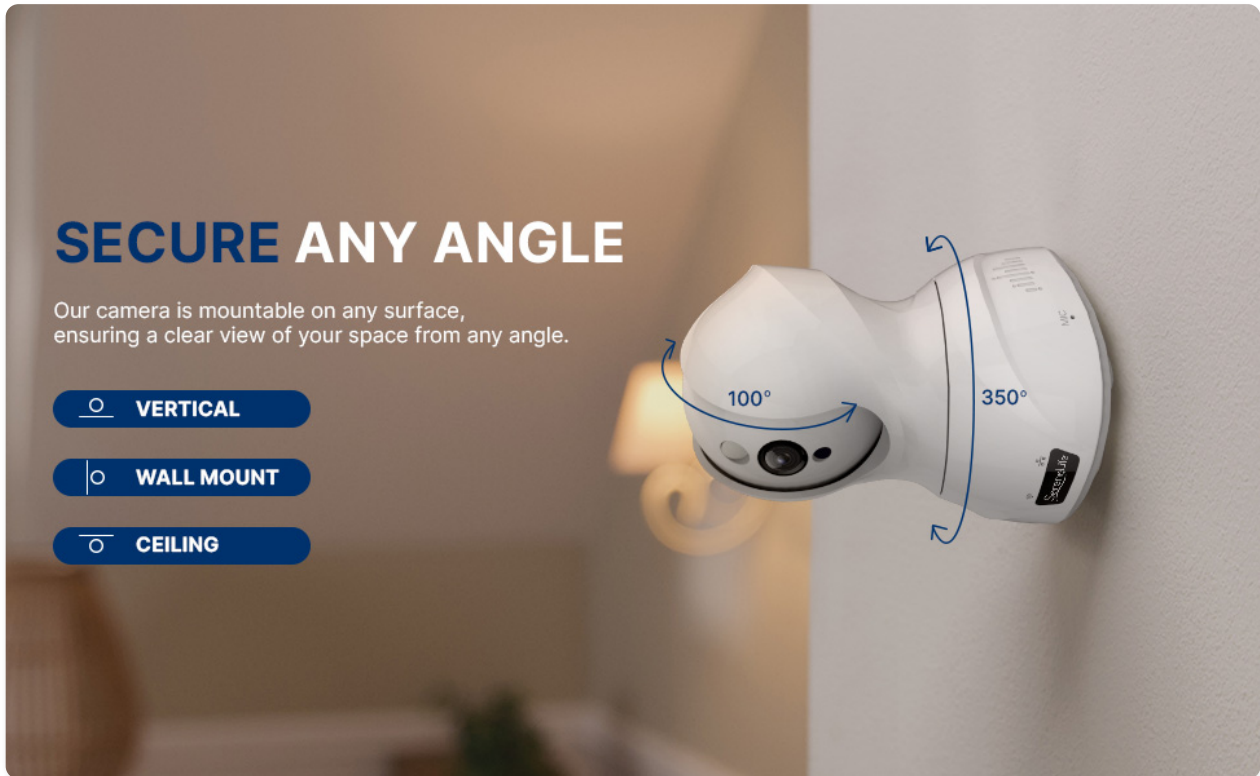

The camera will now operate wirelessly.

6. **Relocate Camera:** You can now unplug the camera and place it in your desired monitoring location.

## 4.4 Mounting Options

The IPCAMHD61 camera offers versatile mounting options to suit your needs:

**Secure Any Angle:** The camera can be mounted vertically on a flat surface, on a wall, or on the ceiling using the provided accessories, ensuring a clear view from any angle.

- **Vertical Placement:** Place the camera on a flat surface like a shelf or table.
- **Wall Mount:** Use the included bracket and screws to secure the camera to a wall.
- **Ceiling Mount:** Attach the camera to the ceiling using the bracket and screws. Ensure the image orientation is adjusted in the app settings if mounted upside down.

## 5. OPERATING INSTRUCTIONS

### 5.1 Live View

Once connected, open the MIPC app to view the live video feed from your camera. You can select individual cameras if you have multiple devices connected to your account.

**Live Monitoring:** View the camera's live feed directly from your smartphone app, with options for cloud or local recording.

## 5.2 Pan, Tilt, and Zoom (PTZ)

To adjust the camera's view:

- **Pan/Tilt:** In the live view, swipe your finger across the screen to pan (move horizontally) or tilt (move vertically) the camera. The camera supports 350° pan and 100° tilt.
- **Digital Zoom:** Pinch in or out on the live view screen to digitally zoom in or out.

## 5.3 Two-Way Audio

To use the two-way audio feature:

- **Listen:** Tap the speaker icon in the app to hear audio from the camera's environment.
- **Speak:** Tap and hold the microphone icon to speak through your phone. Your voice will be projected through the camera's speaker. Release the icon to stop speaking.

## 5.4 Recording Options

The camera offers various recording modes:

- **24-Hour Mode:** Continuously records video.
- **Motion Detection:** Records only when motion is detected. You can adjust the sensitivity of motion detection in the app settings. Alerts can be configured to notify you when motion is detected.
- **Scheduled Recording:** Set specific times for the camera to record.

Recordings are typically saved to an inserted SD card (not included) or to optional cloud storage services.

## 5.5 Night Vision

The camera automatically activates its infrared night vision in low-light conditions. The IR LEDs provide clear black and white video in complete darkness.

- **Automatic Activation:** Night vision engages automatically when ambient light is insufficient.
- **Manual Control:** Settings in the MIPC app allow for manually disabling night vision if needed, for example, to prevent glare when viewing through a window.

**Automatic Night Vision:** The camera provides clear images in both daylight and complete darkness, ensuring continuous monitoring.

## 6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid abrasive cleaners or solvents.
- **Firmware Updates:** Periodically check the MIPC app for available firmware updates to ensure optimal performance and security.
- **Placement:** Ensure the camera is placed in a location with good Wi-Fi signal strength for stable operation. Avoid placing it near strong electromagnetic interference.
- **Power Supply:** Use only the original power adapter provided with the camera.

## 7. TROUBLESHOOTING

### 7.1 Common Issues and Solutions

- **Camera Offline:**
  - Check power connection.
  - Verify Wi-Fi signal strength.
  - Restart the camera by unplugging and replugging it.
  - Ensure your router is functioning correctly.
- **Poor Video Quality:**
  - Check your internet connection speed.
  - Clean the camera lens.
  - Adjust video quality settings in the MIPC app to optimize for your network.
- **No Audio or Poor Two-Way Audio:**
  - Ensure microphone and speaker volumes are adjusted in the app.
  - Check for obstructions around the microphone and speaker.
  - Minimize background noise in the camera's environment.
- **Motion Detection Not Triggering:**
  - Adjust motion detection sensitivity in the app settings.
  - Ensure motion detection recording is enabled.

### 7.2 Official Product Videos

For visual guidance on setup and features, refer to the following official product videos:

**Video: Wireless IP Home Security Camera - High Definition HD 720p Wifi Cloud Cam for Indoor Home.** This video provides an overview of the camera's capabilities and general usage.

**Video: IP Camera Features.** This video highlights specific features of the IP camera, demonstrating its functionalities.

## 8. SPECIFICATIONS

Feature	Specification
Model Number	IPCAMHD61
Indoor/Outdoor Usage	Indoor
Video Capture Resolution	720p (Effective), 1080p (Marketing)

Maximum Webcam Image Resolution	1 MP
Connectivity Technology	Wired (Ethernet), Wireless (Wi-Fi)
Wireless Communication Technology	Wi-Fi
Power Source	AC/DC (5 Volts, 7 Watts)
Controller Type	Android, iOS (MIPC App)
Mounting Type	Ceiling Mount (also Vertical, Wall Mount)
Special Features	Motion Sensor, Night Vision, Two-Way Audio, PTZ
Frame Rate	25 fps
Item Dimensions (L x W x H)	4.5 x 5.1 x 5.1 inches
Item Weight	12 Ounces
Material	Aluminum
Color	White
UPC	068888762243

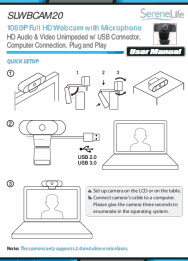

## 9. WARRANTY AND SUPPORT

For warranty information and technical support, please refer to the official SereneLife website or contact their customer service department. Keep your purchase receipt as proof of purchase.
