7. AROMA THERAPY FEATURE

To utilize the aroma therapy feature, locate the aroma fragrance tray, typically found on the base of the humidifier. Add a few drops of your preferred essential oil to the pad within this tray. Do not add essential oils directly into the water tank, as this can damage the unit.

8. MAINTENANCE

Regular cleaning is crucial for optimal performance and hygiene.

- **Daily:** Empty and rinse the water tank and base with clean water after each use. Allow to air dry.
- **Weekly:** For a more thorough cleaning, gently wipe down the interior of the water tank and base with a soft cloth and a mild descaling solution (e.g., white vinegar diluted with water). Rinse thoroughly to remove any residue.
- **Filter:** The humidifier does not use a replaceable filter for mist generation, but ensure the water reservoir is kept clean to prevent mineral buildup.

9. TROUBLESHOOTING
