3.2. Initial Power On

Once connected, the keyboard's default lighting profile will activate. For full customization and advanced features, it is recommended to install the SteelSeries Engine software.

4. OPERATING THE KEYBOARD

4.1. Key Features and Functions

- **Low Profile Keys:** Designed for a comfortable feel with short travel distance and fast response time, ideal for gaming.
- **Ergonomically Elevated F and Macro Keys:** Positioned for easy access during intense gameplay.
- **Media Controls:** Dedicated keys for volume, play/pause, and track skipping.
- **Anti-Ghosting (10 N-key Rollover):** Ensures that up to 10 simultaneous key presses are registered accurately.

4.2. SteelSeries Engine Software

The SteelSeries Engine is the central software for managing your Apex 350 keyboard. It allows for comprehensive control over illumination, macros, and profiles. Download the latest version from the official SteelSeries website.

5. CUSTOMIZATION

5.1. Illumination

The Apex 350 features 5-zone RGB LED backlighting, allowing for 16.8 million color options. With SteelSeries Engine, you can:

- Independently customize the color and intensity of each of the 5 lighting zones.
- Apply various lighting effects (e.g., breathing, color shift).
- Set up Active Zone lighting, which provides visual cues for in-game events or cooldowns.

5.2. Macros and Profiles

The keyboard supports multiple macro layers and programmable keys. Using the SteelSeries Engine:

- Record and assign complex macros to any of the dedicated macro keys (M1-M10).
- Create and save multiple profiles for different games or applications.
- Link profiles to specific applications for automatic switching.

6. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your SteelSeries Apex 350 keyboard, follow these care instructions:

- **Cleaning:** Use a soft, dry cloth to wipe down the keyboard surface. For dust and debris between keys, use compressed air. Avoid harsh chemicals or abrasive materials.
- **Spills:** In case of liquid spills, immediately disconnect the keyboard from your computer. Turn it upside down to drain liquid and allow it to dry completely before reconnecting. Do not attempt to disassemble the keyboard.
- **Storage:** Store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

If you encounter issues with your Apex 350 keyboard, try the following solutions:

Problem	Possible Solution
---------	-------------------

Problem	Possible Solution
Keyboard not responding	<p>Ensure the USB cable is securely connected to both the keyboard and the computer.</p> <p>Try a different USB port on your computer.</p> <p>Restart your computer.</p> <p>Test the keyboard on another computer to rule out a system issue.</p>
Backlighting not working or incorrect colors	<p>Ensure SteelSeries Engine software is installed and running.</p> <p>Check lighting settings within the SteelSeries Engine.</p> <p>Update SteelSeries Engine to the latest version.</p>
Macros not executing	<p>Verify macro assignments in SteelSeries Engine.</p> <p>Ensure the correct profile is active.</p> <p>Check for conflicts with other software or hotkeys.</p>
