### smarTrike 105-0300

# smarTrike Toddler Balance Bike Instruction Manual

Model: 105-0300

Brand: smarTrike

## INTRODUCTION

---

The smarTrike Toddler Balance Bike is designed to help children aged 2 to 5 years develop essential motor skills, balance, and coordination. This lightweight and adjustable balance bike provides a safe and fun way for toddlers to learn the basics of riding before transitioning to a pedal bike. Its unique 2-in-1 frame design allows it to adapt as your child grows, ensuring long-lasting use.

## Learning balance from the age of 2 years

### SETUP

---

The smarTrike Balance Bike is designed for quick and easy assembly. No special tools are required. Follow the instructions provided in the packaging for detailed steps. Ensure all components are securely fastened before first use.

Your browser does not support the video tag.

### OPERATING INSTRUCTIONS

---

#### Adjusting the Bike for Your Child

The smarTrike Balance Bike features a unique 2-in-1 flip frame, an adjustable seat, and an adjustable handlebar to accommodate children as they grow. This allows for two learning stages:

- **Low Frame Position:** Ideal for younger toddlers (2-3 years old) to easily reach the ground with their feet, promoting early balance skills.

- **High Frame Position:** As your child grows taller and gains confidence, simply flip the frame to position the seat higher, providing a comfortable fit for older children (3-5 years old).

Ensure the child's feet can comfortably touch the ground while seated, with a slight bend in the knees, to allow for proper pushing and balancing.

## Riding the Balance Bike

Encourage your child to walk or run while seated on the bike, using their feet to propel themselves forward. As they gain momentum, they will naturally lift their feet and glide, developing their balance. Always supervise your child during use and ensure they wear appropriate safety gear, including a helmet.

## MAINTENANCE

---

- **Cleaning:** Wipe down the bike with a damp cloth and mild soap as needed. Avoid harsh chemicals.

- **Tires:** The bike features puncture-free EVA wheels, eliminating the need for inflation. Regularly check for any damage or excessive wear.
- **Fasteners:** Periodically check all bolts and fasteners to ensure they are tight and secure.
- **Storage:** Store the bike in a dry place away from direct sunlight and extreme temperatures to prolong its lifespan.

## TROUBLESHOOTING

---

If you encounter any issues with your smarTrike Balance Bike, please refer to the following common solutions:

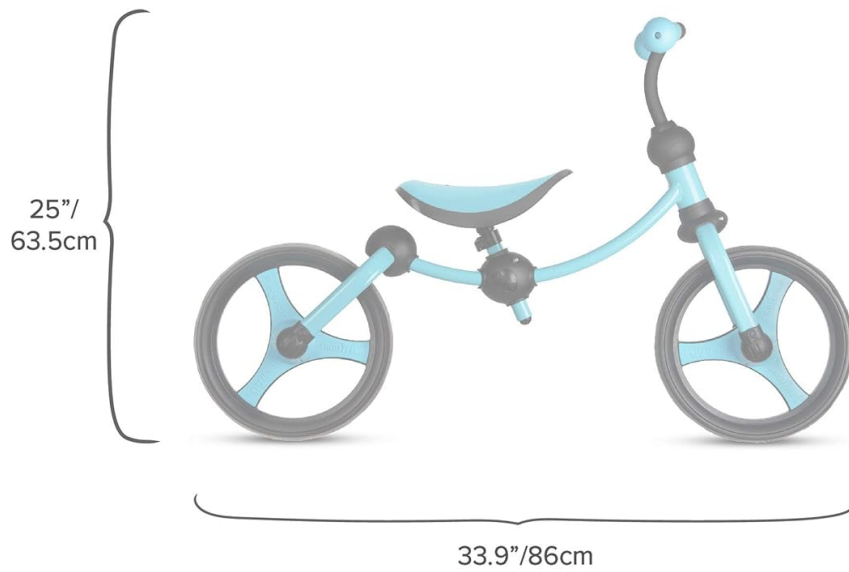

- **Difficulty with Balance:** Ensure the seat height is correctly adjusted so the child's feet are flat on the ground with a slight knee bend. Practice in a safe, open area.
- **Loose Parts:** Re-check all assembly points and tighten any loose screws or bolts.
- **Unusual Noises:** Inspect wheels and moving parts for any obstructions or damage.

If problems persist, please contact smarTrike customer support for assistance.

## SPECIFICATIONS

---

Feature	Detail
Brand	smarTrike
Model Name	2 in 1 Balance Bike
Model Number	105-0300
Bike Type	Balance Bike, Kids Bike
Age Range (Recommended)	24 months - 5 years
Color	Blue
Frame Material	Aluminum
Wheel Material	Ethylene Vinyl Acetate (EVA)
Special Feature	Lightweight, Adjustable
Item Weight	2.2 pounds (1 Kilogram)
Maximum Weight Recommendation	44 pounds (20 Kilograms)
Product Dimensions	86.2 x 40 x 63.5 inches
Assembly Required	Yes

**Product  
weight**  
2.8 kg/6.2 lb

**Max  
child weight**  
20 kg/44 lb

**No tools  
assembly**
