INSTALLATION GUIDE

Follow these steps to properly install your iOttie Easy One Touch Mini Air Vent Car Mount:

1. **Assemble the Mount:** Attach the cradle to the air vent clip. Ensure the ball joint is securely fastened by tightening the knurled nut.
2. **Insert into Air Vent:** Locate a suitable air vent in your vehicle. Push the vent clip firmly into one of the vent blades.
3. **Secure the Mount:** Once inserted, push the locking switch sideways (or twist the knob, depending on your specific model) to clamp the mount securely onto the vent blade. This minimizes movement and vibrations.
4. **Adjust Viewing Angle:** Utilize the 360-degree rotating ball joint to position the cradle for optimal viewing.

MAINTENANCE

To ensure the longevity and optimal performance of your iOttie Easy One Touch Mini, regular maintenance is recommended:

- **Clean Rubber Arms:** Periodically clean the rubber gripping arms with a damp cloth. This prevents dirt and debris buildup that could reduce grip effectiveness.
- **Check Vent Connection:** Ensure the mount remains securely clamped to the air vent. Re-tighten the locking mechanism if any looseness is observed.
- **Avoid Extreme Temperatures:** Prolonged exposure to extreme heat (e.g., direct sunlight in a parked car) can affect the mount's materials and adhesive properties.

TROUBLESHOOTING

If you encounter any issues with your iOttie Easy One Touch Mini, consider the following:

- **Mount Not Holding Securely:**
 - Ensure the vent clip is fully inserted into the air vent.
 - Verify the locking mechanism is fully engaged and tightened.
 - Check if your vent blades are compatible and strong enough to support the mount and your device.
- **Phone Slipping from Cradle:**
 - Clean the rubber gripping arms as described in the Maintenance section.
 - Ensure your phone is centered and pressed firmly against the one-touch button when mounting.
 - Confirm your phone's width is within the supported range (2.3 to 3.5 inches).
- **Difficulty with One Touch Mechanism:**
 - Ensure no debris is obstructing the internal mechanism.
 - Apply gentle, firm pressure to the center button when mounting.
