SETUP AND FIRST USE

1. **Unpack:** Carefully remove all cookware and utensils from their packaging.
2. **Inspect:** Check all items for any signs of damage. If any item is damaged, do not use it and contact customer support.
3. **Initial Cleaning:** Before first use, wash all pots, pans, and utensils thoroughly with warm, soapy water and a soft sponge. Rinse completely and dry immediately.
4. **Seasoning (Optional for Nonstick):** While not strictly necessary for modern nonstick coatings, some users prefer to lightly season their pans. To do so, apply a thin layer of cooking oil to the nonstick surface, heat on low for 30 seconds, then wipe clean.

OPERATING INSTRUCTIONS

General Cooking Guidelines

- **Stovetop Compatibility:** This cookware set is compatible with gas and electric stovetop ranges. **It is NOT for use on induction cooktops.**

- **Heat Settings:** Use low to medium heat settings for most cooking tasks. High heat can damage the nonstick coating and may cause food to burn. The aluminum body with enameled exterior and nonstick interior ensures even heating.
- **Utensil Use:** Always use the provided heat-resistant nylon utensils or other non-metal utensils (wood, silicone) to protect the nonstick surface from scratches.
- **Oil/Fat Usage:** A small amount of oil or butter is recommended for best cooking results and to enhance the nonstick properties.
- **Lids:** The glass lids allow for direct viewing of food while cooking and help retain moisture and heat.

Oven Safety

- All pots and pans are oven safe up to 480°F (249°C).
- **NOTE: Glass lids and cooking utensils are NOT oven safe.** Remove them before placing cookware in the oven.

CARE AND MAINTENANCE

- **Hand Wash Only:** All parts of this cookware set are designed for hand washing. Do not wash in a dishwasher, as this can damage the nonstick coating and exterior finish.
- **Cleaning:** Allow cookware to cool completely before washing. Use warm, soapy water and a soft sponge or cloth. For stubborn food residue, soak the pan in warm water before cleaning. Avoid abrasive cleaners, steel wool, or scouring pads, which can scratch the nonstick surface.
- **Drying:** Dry all items thoroughly immediately after washing to prevent water spots and maintain their appearance.
- **Storage:** Store cookware carefully to prevent scratching the nonstick surface. If stacking, place a soft cloth or paper towel between pans.

TROUBLESHOOTING

- **Food Sticking:** Ensure you are using a small amount of cooking oil or fat. Avoid excessively high heat, which can degrade the nonstick coating over time. Always use non-metal utensils.
- **Discoloration:** Minor discoloration on the exterior or interior can occur over time with regular use, especially if exposed to very high heat. This typically does not affect performance.
- **Glass Lids:** If a glass lid appears to have condensation or residue trapped, ensure the lid is completely dry before storage. The vented design helps prevent excessive pressure buildup.

SPECIFICATIONS

Feature	Detail
Model Number	VR0046

Feature	Detail
Material	Aluminum body with Enameled exterior, Nonstick interior
Color	Black
Number of Pieces	15 (4 pots, 4 lids, 2 frying pans, 5 utensils)
