Setup and Assembly

The Pure Vie makeup set is designed for easy access and compact storage. Follow these steps to open and prepare your palette for use:

1. **Step 1: Initial State**
   The palette arrives in a compact, closed box form. Ensure it is placed on a stable, flat surface.
2. **Step 2: Lift the Top Section**
   Gently lift the top lid of the palette. This will reveal the integrated mirror and the central section of eyeshadows.
3. **Step 3: Extend Side Trays**
   Carefully pull out the side trays located on either side of the central section. These trays contain additional eyeshadows.

4. **Step 4: Access Lower Compartments**
   Below the central eyeshadow section, slide out the lower compartments to access the compact powders, blushers, eyeliner, eyebrow creams, and sponge brushes.

Operating Instructions

This section provides general guidance on how to use the various components of your Pure Vie makeup set. Experiment with different shades and techniques to achieve desired looks.

Eyeshadow Application:

- **Preparation:** Ensure eyelids are clean and primed for better adhesion and longevity.
- **Application:** Use the provided sponge brushes or your preferred eyeshadow brushes.

- For *matte shades*, apply to create depth, define the crease, or as a base color.
- For *shiny shades*, apply to the center of the lid, inner corner, or brow bone for highlight and shimmer.

- **Blending:** Blend colors seamlessly using a clean brush to avoid harsh lines.

Compact Powder Application:

- **Purpose:** Use compact powder to set liquid or cream foundation, reduce shine, and provide a smooth finish.
- **Application:** Lightly dab a powder brush or sponge into the compact powder. Tap off any excess. Gently press and sweep the powder over your face, focusing on areas prone to oiliness (e.g., T-zone).

Blusher Application:

- **Purpose:** Blusher adds a healthy flush of color and helps define cheekbones.
- **Application:** Using a blush brush, lightly pick up color. Smile to locate the apples of your cheeks and apply the blush in upward strokes towards your temples. Blend well.

Eyeliner Pencil Application:

- **Purpose:** Eyeliner defines the lash line and can enhance eye shape.
- **Application:** Gently pull your eyelid taut. Draw a line along your upper or lower lash line, starting from the inner corner and moving outwards. For a softer look, smudge gently with a small brush or cotton swab.

Eyebrow Cream Application:

- **Purpose:** Eyebrow cream helps fill in sparse areas, define the brow shape, and hold hairs in place.
- **Application:** Use a small, angled brush to pick up a small amount of cream. Start by outlining the bottom edge of your brow, then fill in sparse areas with short, hair-like strokes. Blend with a spoolie brush for a natural finish.

Maintenance and Care

Proper care will extend the life of your makeup set and ensure hygienic application.

- **Cleaning Brushes:** Regularly clean the sponge brushes and any other makeup brushes used with a mild brush cleanser or soap and water. Rinse thoroughly and allow to air dry completely before storing.
- **Palette Cleaning:** Gently wipe the exterior of the palette with a damp cloth if needed. Avoid getting moisture into the makeup pans.
- **Storage:** Store the makeup set in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the palette is closed securely to protect the contents from dust and damage.
- **Handling:** Handle the palette with care to prevent accidental drops, which can cause powders to break or crack.

Troubleshooting

Here are solutions to common issues you might encounter:

- **Broken or Cracked Powders:** If a powder (eyeshadow, blush, or compact powder) breaks, you can often repair it. Crush the broken pieces into a fine powder, add a few drops of rubbing alcohol (isopropyl alcohol), mix to form a paste, press it back into the pan, and let it dry completely overnight.
- **Poor Color Payoff:** Ensure your brushes are clean. For eyeshadows, applying an eyeshadow primer beforehand can improve color intensity and longevity.
- **Makeup Not Lasting:** Use a makeup primer before application and a setting spray after to help extend wear time.
